The Actuarial Career

Rich Babel, FCAS, MAAA

The Actuarial Career provides great opportunity and many options for mathematics students. The actuarial profession is currently ranked as the 3rd best job in the US by CareerCast. The actuary is the engineer of the insurance world which allows them to be involved in all aspects of the business ranging from pricing, reserving, finance, operations and product management.

***Rich Babel** received a Bachelor of Science in Business Administration from Bowling Green State University in 1990, followed by an MBA (1992) from The Ohio State University. Rich has held a variety of leadership positions with Nationwide Insurance, CNA Re and PRS Insurance Group. His roles have ranged from Pricing Manager, Assistant Vice President of Standard Auto Product and Chief Actuary. Currently he is employed by LexisNexis as the sales leader for their Insurance Analytics department.*

Friday September 16, 2011, 12:10-12:55pm, MACS 146

Brown bags are welcome!

The B-W Math Seminar sponsors presentations by students, faculty, and outside guests, for all B-W students interested in the mathematical sciences.
