Internship Report

Imagine Software

Alex Trzeciak

Imagine Software's mission is to be the global market leader of portfolio and risk management software and services. Imagine Software runs www.derivatives.com and is the only software to incorporate both risk and portfolio management in one software.

In this presentation Alex, a senior Mathematics major, will describe his internship as a data analyst during the summer of 2011.

Friday December 2, 2011, 12:10-12:55pm, MACS 146

Brown bags are welcome!

The B-W Math Seminar sponsors presentations by students, faculty, and outside guests, for all B-W students interested in the mathematical sciences.
