

Baldwin-Wallace College Mission Statement

Baldwin-Wallace College is an academic community committed to the liberal arts and sciences as the foundation for lifelong learning. The College fulfills this mission through a rigorous academic program that is characterized by excellence in teaching and learning within a challenging, supportive environment that enhances students' intellectual and spiritual growth.

Baldwin-Wallace College assists students in their preparation to become contributing, compassionate citizens of an increasingly global society and encourages their pursuit of personal and professional excellence.

Baldwin-Wallace College Action Plan

The B-W Action Plan helps include all aspects of students' lives as part of their college education. It helps students shape their college experience in order to become the person they want to be. The Action Plan consists of four components:

Be Curious

Your Courses...B-W has more than 50 areas of study which will ensure that you will have a rich foundation of portable skills, no matter what your career direction. Our innovative core courses will improve your global understanding and give you the tools you need to take an active role in shaping your future.

Be Real

Your Experience...Both in and beyond the classroom, we believe nothing teaches like experience. At B-W, you will have opportunities to learn through projects, internships, off-campus study, community service, and research.

Be Successful

Your Plans...In your studies and experiences, B-W faculty, your personal career mentor, and College staff provide guidance as you move through your field of study and as you make connections through B-W's established network of career resources for students.

Be Connected

Your Life...Your involvement in campus life and co-curricular activities is just as important to your education as your classes, papers, and field experiences. B-W is a friendly, active, social community where you'll find plenty of ways to unwind creatively.
