Susan Dileo	Vice President for Enrollment Management
William Spiker	Vice President for Advancement

The College

Founded in 1845, Baldwin-Wallace College was one of the first colleges in Ohio to admit students without regard to race or gender. Today, B-W continues as an independent, coeducational college in the liberal arts tradition, accredited by the Higher Learning Commission.

B-W maintains more than 50 academic programs within the following 7 divisions: Business Administration; Education; Health and Physical Education; Humanities; Music; Science and Mathematics; and Social Sciences. Undergraduate degrees offered include Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Music, and Bachelor of Music Education. Baldwin-Wallace College also offers graduate programs leading to the degrees of Master of Business Administration and Master of Arts in Education.

The campus is in Berea, Ohio, a suburb southwest of Cleveland.

Baldwin-Wallace College does not discriminate because of race, creed, age, disabilities, national origin, gender, or sexual orientation in admissions, programs, or administration.

The 2009-2010 academic year opened with a total fall semester enrollment of 4,397. This total included 3,180 full-time undergraduate students, 504 part-time undergraduates and 713 graduate students. The full-time equivalent enrollment was 3,882, an increase of 66 from the previous fall.

Total spending for programs was \$84,634,365, down slightly from the previous year. B-W continued its long practice of operating with balanced budgets. The operating margin was \$3,881,623, while the total increase in unrestricted net assets was \$7,055,345. In addition to the operating margin, sales of art works, unrestricted gifts to the capital campaign, and investment gains contributed to this increase.

Total net assets increased \$28,786,070, following two years of declines. A principal factor in the turnaround was the recovery in the financial markets. Realized and unrealized gains on endowment and similar investments were \$8,192,697. Gifts restricted for plant and endowment exceeding \$10 million were the other significant factor. The market value of endowment and other long-term assets at June 30, 2010, was \$103,946,340, compared with \$95,786,717 the previous year. Total net assets were \$212,393,290 at June 30, 2010.

Plant spending totaled \$23,143,016. The College completed the construction of the Center for Innovation and Growth building and renovations to Ward Hall. Extensive renovations to Wilker Hall and the Life Earth Science Building were nearly complete at year-end. All of this work was in progress at June 30, 2009. Work on the Conservatory of Music renovations continued. Plant spending also included lesser renovations to existing buildings and purchases of equipment and furnishings.

The Center for Innovation and Growth was complete and in use during the fall semester. The building houses programs that focus on entrepreneurial thinking and economic development. It is located adjacent to the science buildings. It and the science buildings are now served by a geothermal heating system.

The renovated science complex will be open this fall semester. Wilker Hall will house chemistry and physics. Life Earth Science, renamed Telfer Hall to honor major donors, will contain biology and neuroscience, while geology will be in Ward Hall. A two-story addition to McKelvey Auditorium links Wilker and Telfer upper floors. The College has named the entire complex, including the Center for Innovation and Growth, the Thomas Family Center for Science and Innovation, honoring the donors of the principal gift.

B-W undertook to have a portion of the south campus designated as the “Baldwin-Wallace College South Campus Historic District” by the National Park Service, and placed on the National Register of Historic Places. The designation includes Marting, Kulas, Kohler, Dietsch, Klein, Saylor, and Merner-Pfeiffer halls, Lindsay-Crossman Chapel, 63 Beech, and the former First Congregational United Church of Christ building purchased last year.

This designation enables private investors to assist the College financially with renovations in exchange for historic renovation tax credits. The College is entering into such an arrangement for renovations to Merner-Peiffer and the church building and construction of a new building that will link the two. The renovated space will provide offices, practice rooms, and large ensemble rehearsal space for the Conservatory of Music.

In a cooperative project with student government, the College constructed a residential size wind turbine near the baseball field. The turbine provides some power for college use and also serves as an instructional device.

In the fall of 2007, B-W began the public phase of a capital campaign with a goal to raise \$82 million for endowment, plant, and operating support. Transforming Lives: The Campaign for Baldwin-Wallace College will end December 31, 2010. The Advancement Office reports the total raised through June 30 was \$93,643,794. This included approximately \$48 million for campus facilities, \$22 million for endowment, and \$24 million for academic programs and general support.

REPORT OF THE ADMINISTRATION

This report covers the fiscal year 2010 financial statements and related notes of Baldwin-Wallace College, along with supplementary information. The Administration of Baldwin-Wallace is responsible for the preparation and content of these statements. They have prepared the statements from the financial records of the College, in conformity with accounting principles generally accepted in the United States of America.

Statements issued by the Financial Accounting Standards Board govern the form and content of private college and university financial statements. The three basic financial statements are the statements of financial position (assets, liabilities and net assets), activities (revenue and expense), and cash flows. Baldwin-Wallace provides additional analytical and non-financial data, including enrollment, admissions, and fees, as supplementary information.

The College's accounting system includes internal controls designed to provide reasonable assurance, at appropriate cost, of the reliability of its financial records and the proper safeguarding and use of its assets. These controls are based on established policies and procedures, and they are implemented by trained, skilled personnel, with an appropriate segregation of duties.

The independent auditing firm of KPMG has audited the financial statements in accordance with auditing principles generally accepted in the United States of America. Their opinion appears in this report.

The Board of Trustees exercises its responsibility for the financial statements through the Audit Review Committee. The Audit Review Committee has four members. It meets at least annually with members of the Administration and representatives of the independent auditing firm to discuss accounting, reporting and internal control matters.

Independent Auditors' Report

The Board of Trustees
Baldwin-Wallace College:

We have audited the accompanying statements of financial position of Baldwin-Wallace College (College) as of June 30, 2010 and 2009, and the related statements of activities and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Baldwin-Wallace College as of June 30, 2010 and 2009, and the changes in its net assets and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2010 on our consideration of the College's internal controls over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audits for the years ended June 30, 2010 and 2009 were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in Schedule I for the years ended June 30, 2010 and 2009 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information, except for that portion marked "unaudited," on which we express no opinion, has been subjected to the auditing procedures applied in the audits of the June 30, 2010 and 2009 basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole for the years ended June 30, 2010 and 2009.

We have also previously audited, in accordance with auditing standards generally accepted in the United States of America, the statements of financial position of the College as of June 30, 2008 and 2007, and the related statements of activities and changes in net assets and cash flows for the years then ended (none of which is presented herein), and we expressed unqualified opinions on those financial statements. The supplementary information included in Schedule I related to the College's 2008 and 2007 financial statements, except for that portion marked "unaudited," on which we express no opinion, was subjected to auditing procedures applied in the audits of those basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements from which it has been derived.

Cash flows from financing activities:		
Contributions restricted for long-term investment and plant acquisition	10,482,533	3,485,053
Dividends, interest, and other restricted for long-term investment and plant acquisition	1,283,431	975,103
Payments on long-term debt	(845,000)	(815,000)
Net cash provided by financing activities	10,920,964	3,645,156
Net (decrease) increase in cash and cash equivalents	(10,573,069)	21,812,555
Cash and cash equivalents at beginning of year	21,928,331	115,776
Cash and cash equivalents at end of year	\$ 11,355,262	21,928,331
Supplemental disclosure of cash flow information:		
Cash paid for interest	\$ 726,723	758,292

See accompanying notes to financial statements.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

(1) Nature of Organization

Baldwin-Wallace College (College), founded in 1845, is an independent, coeducational college in the liberal arts tradition. The College, which is accredited by the Higher Learning Commission, maintains more than 50 academic programs within the following 7 divisions: Business Administration, Education, Health and Physical Education, Humanities, Music, Science and Mathematics, and Social Science.

(2) Summary of Significant Accounting Policies

(a) Method of Accounting

The accompanying financial statements of the College have been prepared on the accrual basis of accounting in accordance with U.S generally accepted accounting principles.

The College prepares its financial statements to focus on the organization as a whole and to present balances and transactions classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Unrestricted – Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted – Net assets subject to donor-imposed stipulations that will be met either by actions of the College and/or the passage of time.

Permanently restricted – Net assets subject to donor-imposed stipulations that they are maintained permanently by the College. Generally, the donors of these assets permit the College to use all or part of the income earned on related investments for general or specific purposes.

Revenues are reported as increases in unrestricted net assets, unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets, unless their use is restricted by donor stipulation or by law that limits their use. The College has primarily reported gains or losses on investments as permanently or temporarily restricted net assets as a result of such donor stipulations or law. Expirations of temporary restrictions recognized on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications from temporarily restricted net assets to unrestricted net assets. Temporary restrictions on gifts to acquire long-lived assets are considered to be released over the estimated useful lives of the assets using the College's depreciation policies.

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Contributions of long-lived assets, or of cash or other assets to be used to acquire them, with donor stipulations concerning the use of such long-lived assets, are reported as revenue of the temporarily restricted net asset class. Conditional promises to give are not recognized until the conditions on which they depend are substantially met.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

Contributions of assets other than cash are recorded at their estimated fair value at the date of gift, except that contributions of works of art, historical treasures, and similar assets held as part of collections are not recognized or capitalized. Allowance is made for doubtful collection of contributions receivable based upon management’s judgment and analysis of the creditworthiness of the donors, past collection experience, and other relevant factors.

(b) Investments

Investments are reported at fair value. With respect to other investment funds such as the College’s investments managed by the Commonfund (The Common Fund for Nonprofit Organizations), the estimated fair values are provided by external investment managers. These estimated fair values are reviewed and evaluated by the College management. Due to the inherent uncertainties of these estimates, these estimated fair values may differ from the values that would have been used had a ready market existed for such investments.

Investment transactions are recorded on the trade date. Realized gains and losses on the sale of investments are calculated on the basis of the specific identification of securities sold. Investment custodial fees are classified as a reduction in investment income for financial reporting purposes.

The table below provides certain information regarding the amount of unrealized holding losses for marketable equity and debt securities managed by the College as of June 30, 2010 and 2009:

	2010		
	Equity	Debt	
	securities	and other	Total
	securities	securities	
Unrealized losses less than one year:			
Amount of unrealized losses	\$ (14,885,643)	(13,353)	(14,898,996)

Fair value of related securities held in a loss position	4,461,267	52,287	4,513,554
Number of related security positions	67	4	71
Total unrealized losses	(23,453,828)	(1,659,200)	(25,113,028)
Unrealized gains	2,177,525	45,278	2,222,803
Net unrealized losses	\$ (21,276,303)	(1,613,922)	(22,890,225)

(c) Inventory

Inventories, which consist of bookstore and other supplies, are valued at cost determined using the first-in, first-out method.

(d) Annuities and Perpetual Trusts

The College's split-interest agreements with donors consist of irrevocable charitable remainder trusts, charitable gift annuities, and life income contracts for which the College is either the remainder beneficiary or both the trustee and remainder beneficiary.

Assets held in trust for which the College serves as trustee are included in investments. The fair value of these investments was approximately \$6,700,000 at June 30, 2010 and \$6,900,000 at June 30, 2009. In addition, the present value of the estimated future payments to be made to the donors and/or other beneficiaries is included in liabilities. The liabilities are adjusted during the term of the trusts for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits. Significant assumptions used in the calculation of the liability include:

- Assumed mortality rates based upon the 1983 Group Annuity Mortality Table and Annuity 2000 Table
- Assumed valuation interest rates of 4.0%, 4.5% and 5.0%
- Assumed annuity payments made annually at the beginning of the year.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

Assets held in trust for which the College does not serve as trustee (i.e., perpetual trusts) are included as investments in the financial statements. The balances of \$9,544,508 and \$8,596,337 at June 30, 2010 and 2009, respectively, are recorded at fair value. Changes in the value of the College's beneficial interest in these perpetual trusts are reflected within the statement of activities and changes in net assets as permanently restricted unrealized gains.

(e) Government Advances for Student Loans

The College receives government advances to fund student loans. These advances are recorded as a liability within the statements of financial position. Interest earned through loan repayments is reinvested into the program to fund additional loans.

(f) Deferred Revenue

Revenue and expenses related to academic terms conducted over two fiscal years, such as the summer session, are recognized in the fiscal year in which the program is conducted. Amounts prepaid for future academic terms are included in deferred revenue and student deposits within the statements of financial position.

(g) Plant and Equipment

Plant and equipment are stated at cost. Amounts capitalized are depreciated over the estimated useful life of each class of depreciable asset and is computed on the straight-line method. Estimated useful lives are as follows:

Buildings	50 years
Building additions and renovations	25 years
Computers, telephones, copiers, and vehicles	5 years
Other equipment and furniture	10 years

(h) Impairment of Long-Lived Assets

The College evaluates the recoverability of long-lived assets and the related estimated remaining lives at each fiscal year end. The College records an impairment or change in useful life whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable or the useful life. No such impairment was recorded in the fiscal years ended June 30, 2010 and 2009.

(i) Asset Retirement Obligations

The College has recorded a liability for conditional asset retirement obligations in other liabilities on the statements of financial position of \$1,077,000 and \$996,000 at June 30, 2010 and 2009, respectively. Related discount amortization and depreciation in the fiscal years ended June 30, 2010 and 2009 were \$50,000 and \$53,000, respectively.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

(j) *Income Taxes*

The College has received a determination letter from the Internal Revenue Service indicating it is a tax-exempt organization as provided for in Section 501(c)(3) of the Internal Revenue Code, except for taxes pertaining to unrelated business income, and is exempt from federal and state income taxes. No provision has been made for income taxes in the accompanying financial statements because, in management's opinion, the College does not have a significant amount of unrelated business income.

(k) *Cash and Cash Equivalents and Short-Term Investments*

Cash equivalents consist of short-term highly liquid instruments purchased with an original maturity date of three months or less, except for cash and cash equivalents of endowments and similar funds, which are treated as long-term investment assets.

Short-term investments are reported at fair value and represent the College's operating cash that has been invested in a short-term investment fund, which has underlying investments that are not considered cash equivalents and are reported at fair value based on quoted market prices.

(l) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the disclosure of contingent assets and liabilities and the reported amounts of revenue, expenses, gains, and losses during the reporting period. Actual results could differ from those estimates.

(m) *Reclassification*

Certain amounts included in the 2009 financial statements have been reclassified to conform to the 2010 presentation. The reclassifications include restrictions by purpose within the temporarily and permanently restricted net asset balances as presented within the statements of financial position and in note 6.

(3) *Long-Term Debt*

On June 1, 2004, the College issued State of Ohio Higher Educational Facility Revenue Bonds (the Bonds) in the amount of \$18,585,000. Issuance costs of \$238,000 were recorded in prepaid expenses at June 30, 2004 and are being amortized over the life of the Bonds. The Bonds were issued pursuant to a Trust Agreement between the Ohio Higher Educational Facility Commission (the Commission) and National City Bank (the Trustee). The Bonds were dated as of June 1, 2004, and are scheduled to mature annually through 2024. Interest is payable beginning December 1, 2004, and semiannually on each June 1 and December 1, at an annual rate ranging from 2.0% to 5.5%. The outstanding debt balance had fair values of approximately \$14,559,000 and \$15,143,000 at June 30, 2010 and 2009, respectively.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

The annual principal payments required on bonds payable for 2010 and thereafter are as follows:

Fiscal year ending June 30:		
2011	\$	880,000
2012		920,000
2013		960,000
2014		1,005,000
2015		695,000
Thereafter		9,425,000
		13,885,000
	\$	13,885,000

The bond agreements contain certain covenants, including a net revenue covenant whereby the College covenants that it will establish, charge and collect tuition, student fees and charges for services provided by the College such that net revenues available for debt service will equal or exceed, in each fiscal year, 110% of the bond service charges for such fiscal year.

(4) Investments

Endowment and similar investments include endowment funds, funds functioning as endowment, charitable gift annuities, charitable remainder trusts, and beneficial interests in outside trusts. At June 30, 2010 and 2009, investments and cash and cash equivalents comprised the following:

	2010	2009
Cash and cash equivalents	\$ 444,181	5,350,508
Commonfund:		
Equity funds –		
Emerging Markets Investors	10,473,829	—
Equity Index	941,522	—
Other Equities	35,975,947	53,158,199
Fixed income funds –		
High Quality Bond	19,422,710	19,060,558
CFI Real Return Bond	2,084,645	—
Alternative funds, marketable	11,197,419	—
Alternative funds, non-marketable	165,250	—
Common stocks	6,176,168	4,077,420
Preferred stocks	1,879,204	2,158,170
Equity and balanced mutual funds	4,160,262	2,356,620
Fixed income	1,089,040	777,843
Beneficial interest in perpetual trusts	9,544,508	8,596,337
Limited partnerships and other	391,655	251,062
	\$ 103,946,340	95,786,717

Commonfund is an institutional investment manager serving higher education, health care, foundations, and other nonprofits.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

As of June 30, 2010 and 2009, the total net gain (loss) for the year comprises of the following:

	<u>2010</u>	<u>2009</u>
Unrealized net gain (loss)	\$ 12,279,813	(30,737,545)
Realized net gain (loss)	(4,087,116)	(4,727,485)
Total net gain (loss) for the year	<u>\$ 8,192,697</u>	<u>(35,465,030)</u>

Interest income earned on operating cash equivalents and included in other unrestricted revenue was approximately \$371,000 and \$140,000 for the years ended June 30, 2010 and 2009, respectively. Interest income on endowments is recorded within the statements of activities and changes in assets in the respective net asset category based on donor stipulations. Amounts reported for the years ended June 30, 2010 and 2009 are as follows:

	<u>2010</u>	<u>2009</u>
Unrestricted net assets	\$ 1,525,000	1,680,000
Temporarily restricted net assets	4,352,376	4,998,308
Permanently restricted net assets	281,507	374,375

(5) Fair Value Measurements

On July 1, 2008, the College adopted the recognition and disclosure provisions prescribed in ASC 820 *Fair Value Measurement and Disclosures*, for financial assets. ASC 820 establishes a framework in generally accepted accounting principles for measuring fair value and expands disclosures about fair value measurements. Although it does not require any new fair value measurements, ASC 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and should be determined based on the assumptions that market participants would use in pricing the asset.

ASC 820 establishes a hierarchy for ranking the quality and reliability of the information used to determine fair values. ASC 820 requires that assets carried at fair value be disclosed according to the following three levels:

Level 1 – Unadjusted quoted prices in active markets for identical assets. Level 1 yields the highest priority to unadjusted quoted prices in active markets for identical assets. A quoted price in an active market provides the most reliable evidence of fair value and shall be used to measure fair value whenever available.

Level 2 – Observable inputs other than quoted prices in Level 1. Inputs such as quoted prices for similar assets in active markets, quoted prices for identical or similar liabilities that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs that are significant to the valuation of assets and are supported by little or no market data. This includes discounted cash flow methodologies, pricing models, and similar techniques that use significant unobservable inputs.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

The College has categorized the investments by valuation technique. Level 1 investments include cash equivalents, short term investments and equity securities. These valuations are based on quoted prices from active stock exchanges for identical assets and include cash equivalents and equities. Level 2 investments include fixed income securities and other miscellaneous securities. These valuations are based on quoted prices from active stock exchanges for similar assets, quoted prices in inactive markets, or other observable market data such as matrix pricing and yield curves.

Commonfund management quotes net asset values for each of its funds at the end of each month based on the quoted market price of the fund's underlying securities. The net asset value has been applied as a practical expedient for estimating fair value as the investment can be redeemed at the net asset value. The net asset value is also applied as a practical expedient for the valuation of the College's beneficial interest in perpetual trusts. However, these assets are classified as Level 3 as the investments cannot be redeemed at net asset value.

The investments that are valued at their net asset value at June 30, 2010 include the following:

	<u>Fair Value</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
CSS Diversifying Company	\$ 1,966,505	Quarterly	95 days
CSS Relative Value & Event Driven Company	3,456,647	Annually	95 days
CSS Global Hedged Equity Company	5,774,267	Quarterly	95 days
Global Distressed Investors, LLC	165,250	Annually	120 days
Emerging Market Investors Fund	10,473,829	Monthly	5 days
Equity Index Fund	941,522	Monthly	5 days
Other Equities	35,975,947	Monthly	5 days
High Quality Bond Fund	19,422,710	Monthly	5 days
CFI Real Return Bond Fund	2,084,645	Monthly	5 days
Beneficial interest in perpetual trusts	9,544,508	N/A	N/A

These funds utilize a multi-manager approach, allocating assets to investment Sub-Advisors or investment funds managed by Sub-Advisors (Third Party Investment Funds). The strategies employed by the funds are primarily long-term or full market cycle approaches.

The beneficial interest in perpetual trusts represent the College's interest in trusts held by outside parties. These trusts are primarily invested in marketable equity and debt securities.

The College has an alternative investment in distressed debt. The College has committed to make a total investment of \$2,500,000, of which \$165,250 has been invested, leaving \$2,334,750 of outstanding commitments as of June 30, 2010.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

Realized and unrealized gains	1,184,381	—	1,184,381
Balance at June 30, 2010	\$ 9,544,508	165,250	9,709,758

(6) Endowment

The College's endowment consists of approximately 450 individual funds. The donors of most of these funds have restricted the principal for investment. Some of those donors have also restricted the use of the income as to purpose. The College classifies these funds, sometimes referred to as true endowment, as permanently restricted net assets. The College's Board of Trustees has designated other funds, usually resulting from major bequests or gifts, as funds functioning as endowment. The College classifies these funds as temporarily restricted net assets if the donor restricted the gift as to purpose, or as unrestricted net assets.

As a matter of fundraising practice, the College executes a signed agreement with all true endowment donors. These agreements specify, among other things, that the funds are governed by Baldwin-Wallace endowment policy, and that gains in excess of those required by the spending policy are added to principal, increasing the permanently restricted fund balance by such gains.

The College's spending policy is to withdraw each year an amount not exceeding 5.5% of the average of the June 30 market values for the preceding three years. These withdrawals include all ordinary investment income and the amount of accumulated gains required. The statements of activities and changes in net assets for each of the three net asset classes show these withdrawals as endowment investment income.

From time to time, the fair value of assets associated with individual endowment funds may fall below the level that the donor or legislation requires the College to maintain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature are reported in unrestricted net assets. There were no such deficiencies as of June 30, 2010 and 2009.

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

The following tables present the presents the endowment net asset composition by fund type as of June 30, 2010 and 2009:

June 30, 2010				
	Permanently restricted	Temporarily restricted	Unrestricted	Total
Donor-restricted endowment funds	\$ 79,722,275	—	—	79,722,275
Board designated funds	—	6,638,828	3,624,566	10,263,394

Balances June 30, 2010	<u>\$ 79,722,275</u>	<u>6,638,828</u>	<u>3,624,566</u>	<u>89,985,669</u>

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

Members of the Baldwin-Wallace College Investment Committee develop investment policy subject to the approval by the Board of Trustees. They design the policy to be flexible and subject to revisions as the needs of the College may change. While the endowment is under the responsibility of the Board of Trustees, the Board has delegated authority for investment activities – including appointment, oversight, and evaluation of the Investment Manager – to the Investment Committee, whose members are appointed and serve at the pleasure of the Chairperson of the Board of Trustees. The members of the Investment Committee are all Trustees who volunteer their services on a pro bono basis.

The College's objective is to invest the endowment to seek an average total annual return that exceeds the spending rate plus inflation. The intent is to preserve over time the principal value of the assets as measured in inflation-adjusted terms. The relative objective is to seek competitive investment performance versus appropriate capital market measures. The comparative performance objective is to achieve a total rate of return that is above the median performance of a universe of similarly managed funds.

The endowment has an indefinite time horizon that runs concurrent with the endurance of the College, in perpetuity. As such, the endowment can assume a time horizon that extends well beyond a normal market cycle, and can assume an above-average level of risk as measured by the standard deviation of annual returns. However, it is expected that both professional management and portfolio diversification will smooth volatility and help ensure a reasonable consistency of return.

The assets are managed on a total return basis.

Ohio enacted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) with an effective date of June 1, 2009. The College believes that its policies and procedures comply with the provisions of the law.

(7) Retirement Plan

The College participates in the Teachers Insurance and Annuity Association retirement plan, which covers substantially all regular full-time employees. The retirement plan is funded by College contributions ranging from 7% to 10% of the covered employees' regular salary and by required employee contributions ranging from 3% to 5% of regular salary. During 2010 and 2009, the College's contributions aggregated approximately \$1,980,000 and \$1,956,000, respectively.

(8) Commitments and Contingencies

Under the terms of federal and state grants, periodic audits are required and certain costs may be questioned as to their allowability in connection with the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. College management believes disallowances, if any, will not be material to the College's financial statements.

(9) Gift Pledges

Gift pledges totaling \$5,537,849 and \$1,382,158 at June 30, 2010 and 2009, respectively, represent unconditional promises to give. All gift pledges are restricted as to use for various purposes, primarily for plant or endowment. These promises are reported at the present value of estimated future cash flows. Those received through June 30, 2009 were discounted at a rate of 6%, and those received subsequent to June 30, 2009 were discounted at a rate of 3%. Discounts of \$579,655 and \$99,456 were recorded at

BALDWIN-WALLACE COLLEGE

Notes to Financial Statements

June 30, 2010 and 2009

June 30, 2010 and 2009, respectively. Most of the increase in pledges during the year ended June 30, 2010 resulted from meeting conditions for promises received in past years.

Gift pledges are expected to be realized as follows:

	2010	2009
In one year or less	\$ 2,380,721	1,245,628
Between one and five years	3,006,783	715,986
More than five years	1,250,000	—
	6,637,504	1,961,614
Less allowance for uncollectible pledges	(520,000)	(480,000)
Less discount on pledges	(579,655)	(99,456)
Net pledges receivable	\$ 5,537,849	1,382,158

Conditional promises to give totaled approximately \$18,134,000 as of June 30, 2010. This amount included \$17,494,000 in commitments contained in wills or insurance policies, and \$640,000 in pledges which contain matching and other requirements. The amount at June 30, 2009 was approximately \$31,099,000. Conditional promises to give are not recorded in the financial statements.

(10) Income Taxes

The College has adopted ASC 740 *Accounting for Uncertainty of Income Taxes*, which clarifies the accounting for uncertainty in income taxes recognized in an organization’s financial statements. ASC 740 prescribes a more-likely than-not recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken. Under ASC 740, tax provisions are evaluated for recognition, derecognition, and measurement using consistent criteria and they will provide more information about the uncertainty in income tax assets and liabilities. Based on the College’s evaluation, no provision is required as of June 30, 2010 and 2009.

(11) Line of Credit and Short-term Financing

The College has a \$5,000,000 line of credit for operating funds at LIBOR plus 250 basis points. No borrowings were outstanding as of June 30, 2010 and 2009.

The College has secured a bank multiple draw term loan of up to \$10 million to provide interim financing for its South Campus Historic District construction project. The terms of the loan are LIBOR plus 150 basis points for the first 24 months and LIBOR plus 175 basis points for the next 60 months. There were no draws prior to year end.

(12) Historic Tax Credits and Limited Liability Company

During the year ended June 30, 2010, the College created a new historic district containing ten campus buildings, the Baldwin-Wallace College South Campus Historic District. The Ohio Historic Preservation Office and the National Park Service approved this district. It was placed on the National Register of Historic Places on June 7, 2010. On June 28, 2010, The Ohio Historic Preservation Office and the National

Notes to Financial Statements

June 30, 2010 and 2009

Park Service approved an application for renovation of two of the buildings and construction of a third. This development, when completed according to specific requirements, is expected to qualify for Federal tax credits of \$3.4 million and state tax credits of \$3.6 million.

To obtain benefit from the credits, the College formed a for-profit limited liability company, KCM I, and transferred title to the two buildings to be renovated, Merner-Pfeiffer Hall and the adjacent church building purchased last year to KCM I. The project includes construction of a third building to link the two.

The estimated net project cost to the College is \$15 million, is expected to be funded by gifts, pledges and operating funds. Interim financing has been secured through a bank multiple draw term loan, as described in Note 11.

As of year end the College was the only member of KCM I and the financial results are consolidated into the College's financial statements.

(13) Subsequent Events

The College evaluated subsequent events applicable to the year ended June 30, 2010 through October 12, 2010 the date the financial statements are available to be issued. No reportable events, other than those described, have occurred.

Subsequent to June 30, 2010, KCM I admitted a for-profit corporate investor. The investor plans to utilize the \$7 million of tax credits and will contribute \$5.3 million to the project. The investor will remain a member of KCM I for five years. The College will manage the project.
