

BW Core Curriculum Guide

for Cuyahoga Community College students

Baldwin Wallace University is transitioning to a new Core Curriculum effective for transfer students enrolling at BW beginning Fall Semester 2018. This guide is designed to help Tri-C students select courses that will meet Core requirements at BW. Any Core areas not completed at Tri-C may be completed at BW as part of the bachelor degree requirements.

Note for A2BW Transfer Students

This guide is intended for students who are **not** earning an associate's degree and want to take courses that meet the Core Curriculum at Baldwin Wallace University. The Associate to Bachelor (A2BW) program allows students with an approved associate degree to complete a reduced Core at Baldwin Wallace. A2BW students do not need to meet all areas outlined below, but must have completed 24 credits selected from these Core areas, which should include the math and English composition requirements.

To learn more about A2BW, talk with a BW transfer counselor at admission@bw.edu or 440-826-8012. www.bw.edu/A2BW.

Mathematics

BW students must take the equivalent of BW's MTH-135 or higher depending on major and minor. If math is **not** transferred to BW, students should complete their math core requirement during their first two semesters at BW. This also applies for A2BW students.
