The next 4 years of your life will be full of change, growth, and good memories. Be sure to take advantage of all the opportunities that BW has to offer. Make friends with different people on campus, attend events about things you’ve never heard of, make those connections with professors and faculty that will last a lifetime!

While academics will definitely be a large focus during your time here, make sure to get involved in other aspects of life on campus. Joining Student Government is a great way to get to know different areas of campus and implement changes you want to see made. We also have over 100+ student run organizations for you to join to fuel your interests or hobbies. Blossoming into a contributing and compassionate citizen comes naturally at BW when you immerse yourself in your passions.

I look forward to serving you as the Student Body President for the next year! I always knew I wanted to have a positive impact on campus and student life, and I am so thankful I get to spend my last year at BW doing just that! Student Body Vice President Aru Gupta and I have been working hard to make sure student voice is heard and represented on campus. We hope you take advantage of our office hours and email addresses to voice your concerns about student life on campus. I promise we will do all that we can to continue to foster the diverse and inclusive environment that BW has given me. Once again, welcome to BW and I hope to see you around campus soon!

YJ4L,
Ally Crays
Student Body President 2019-2020
Hello Yellow Jackets!

I want to take this opportunity to welcome you to our community of scholars, leaders, and friends and let you know how excited we are to have you join the BW family. My name is Arundhati Gupta (Aru) and I am honored to serve as your Student Body Vice President for 2019-20. It is the beginning of a new and exciting chapter of your life as you explore an array of opportunities and experiences here at Baldwin Wallace. For many of you, this is your first time away from friends and family. This distance may be down the street, across the country or even across the globe. However, this is also the first time you truly get to be an independent adult. You have the ability to make your college life whatever you want it to be and I hope you reach out and take hold of all the opportunities and resources available to you. I also strongly encourage you to step outside your comfort zone because this is the time you explore, meet new people and grow into the person you aspire to be.

As you begin this new chapter as a college student, I want you to know that your voice matters. Tell your story, impact lives and make sure you leave a mark wherever you go. Student Body President, Ally Crays, and I are driven to make sure that student voices and ideas are heard and represented to create a supportive environment for all members of our community and to help you foster the individual you want to become. I challenge you to play an active role and make a mark on this community in your time here. No matter what position you hold, know that you have the power to bring a change and we look forward to working with you and witnessing the contributions you make to our campus.

Even though academics will be your priority I can confidently share this advice with you: getting the most out of your college education requires that you explore your interests outside of the classroom. Find what you are passionate about and pour your heart and soul into it and I promise you it will be worth it.

You have made an excellent decision in choosing Baldwin Wallace and I cannot wait to see what the future holds for you. Welcome home!

Best,
Aru Gupta
Student Body Vice President, 2019-2020

**Bach Festival**

The Baldwin Wallace Bach Festival, the United States’ oldest collegiate Bach Festival, was founded in 1932 by longtime Director of the BW Conservatory, Professor Albert Riemenschneider, and his wife Selma. **Dance Marathon**

The mission of the Baldwin Wallace University Dance Marathon, in conjunction with the Elizabeth Glaser Pediatric AIDS Foundation (EGPAF), is to unite the community in a tradition of hope that one day children infected with AIDS will be cured. **April Reign**

April Reign weekend brings together fraternity, sorority, independent, Veteran, and commuter teams to compete for the title of April Reign Champions. Crowds of faculty, staff, students, alumni, and members of the surrounding communities cheer students on in a variety of challenges which take place both on campus and at the nearby Cleveland Metroparks.
SPIRIT & TRADITION

History of Baldwin Wallace University
Since 1845, Baldwin Wallace University has pursued the goals of its pioneering founders, offering a superior, personalized education that fosters personal and professional excellence and prepares students as contributing, compassionate citizens. BW’s core values of respect and integrity remain an important thread in the fabric of the institution.

Founded With a Gift and Open Arms
Baldwin Wallace was founded with a gift from John Baldwin of “a five-acre campus, 30 village lots and 50 acres of land.” Baldwin, a wealthy quarry owner whose mother had been denied entry to an eastern university because she was a female, was joined by other business and civic leaders–James Wallace, Fletcher Hulet and Josiah Holbrook–as he launched Baldwin Institute, a school committed to education “regardless of race, gender, creed” or ability to pay. In fact, the institution’s first graduate, Maria Poe, was female. It became Baldwin University in 1856.

Baldwin University’s earliest classes included nearly as many women as men, and students who could not afford an education were offered jobs to help cover the cost of tuition.

Merging, Innovating and Growing
With the increasing numbers of German emigrants relocating to Berea to work in the quarries, a German department was created at Baldwin University to teach their children. In the 1860s, neighboring German Wallace College grew out of that department. An early cooperative agreement allowed students to take courses in both schools.

By 1913, Baldwin University and German Wallace College merged to create Baldwin-Wallace College, combining resources to create greater financially stability and strength.

As the merged BW continued to grow in enrollment and stature, the university created opportunities for adult learners. During World War II, BW housed a Navy V-12 program on campus. After the war, BW recognized the challenges faced by these returning students, and became an innovator by offering night classes so that the veterans could hold a job and support a family while completing a college degree. In the 1970s, BW also was among the first to offer weekend degree programs for adult students.
A Conservatory of Music is Born
In 1898, BW began a journey that would give birth to an internationally respected Conservatory of Music—one of the few in the nation housed in a liberal arts institution. That year, during his junior year at German Wallace College, Albert Riemenschneider began teaching music. Upon his graduation in 1899, Riemenschneider was appointed head of the music department, a position he held until 1947.

In 1932, together with his wife, Selma, Riemenschneider founded the Baldwin Wallace Bach Festival, which continues to receive acclaim as the nation’s oldest collegiate Bach Festival.

Program Evolution and a New Name
In the mid-1970s, BW introduced thriving graduate programs in business and education, which now are among the largest in Ohio. More recently, BW added graduate programs in Physician Assistant, Speech Pathology and Leadership in Higher Education. At the undergraduate level, BW currently offers 75 major areas of study in seven academic schools and the Conservatory of Music, many of which are in pre-professional areas, including an accelerated Bachelor of Nursing degree and cutting edge programs in software engineering, neuroscience, national security and sustainability.

In 2012, to more accurately reflect the expanded breadth of those undergraduate and graduate academic programs, Baldwin-Wallace College officially became Baldwin Wallace University.

Baldwin Wallace University Today
Today, Baldwin Wallace University has some 4,000 students enrolled in undergraduate and graduate programs on a 125-acre campus in Berea and online.

While BW continues to innovate on many levels, the institution’s community of learners is supported by enduring values of inclusion, support, engagement and excellence. The result is a distinctive student-centered experience that supports each individual in achieving their full potential in pursuit of big dreams, meaningful careers and an extraordinary life.

BEREA AND BEYOND

History of Berea
Adapted from www.cityofberea.org/326/History

Berea got its name by the flip of a coin back in 1836. Henry O. Sheldon, a circuit rider and later Berea's first postmaster, selected Berea and Tabor as possible names for the community. The townspeople decided to simply flip a coin, and Berea won, thus becoming the town's name.

Information obtained from the Berea Historical Society reveals that a New Englander named John Baldwin is credited with being one of Berea’s founding fathers. He is also known as the founder of the Baldwin Institute, which later became our University. John Baldwin prospered in Berea by successfully transforming the sandstone along the banks of the Rocky River into a successful industry beginning in the early 1840s and lasting nearly a century. His invention, a lathe to cut slabs of stone into grindstones, would make “Berea Stone” world famous.

Living in Berea
Adapted from www.cityofberea.org/320/Living-Here

Berea is a historic community located approximately 12 miles south of Cleveland, Ohio and two miles South of Cleveland's Hopkins International Airport in Cuyahoga County. Established in 1836, the town has a rich history in sandstone quarries, education, and transportation. The vein of superior quality sandstone, which surfaces in the area, became known the world over as "Berea Stone". Today, Berea is situated within five minutes of Interstate Highways, an International Airport and other big city amenities that make living here very attractive.

Berea offers excellent medical care with numerous physicians, dentists, and other health care professionals. The Southwest General Medical Health Center is nearby as well as four other major medical facilities.

Berea has several shopping areas including the Berea Commons and Downtown Triangle, University Market, Parkside Shoppes, West Valley Plaza, Berea Plaza, and the North End. Berea enjoys two major supermarkets, two drug stores, and almost 500 other businesses in the city.

CAMPUS INFORMATION

You will come to find BW is a very safe campus. However, this does not mean we are not prepared for the worst. BW’s Emergency Response Plan is reviewed and updated on a regular basis and the Emergency Response Team, chaired by President Robert C. Helmer, is on call at any time if the need should arise.

A 12-member Safety and Security Department is augmented with a Student Auxiliary Staff that helps patrol the campus and provide escort to anyone twenty four hours a day, seven days a week. Their reach is extended by over 100 viewable, recording security cameras and nineteen emergency phones in high campus traffic areas. The Safety and Security Department shares radio communication with other campus departments as well as the Berea Police Department.

SOLID RELATIONSHIPS WITH LOCAL AUTHORITIES

We hire Berea police to help patrol the campus at various times of the day and they have access to many of our buildings. BW has shared a radio frequency with the local authorities for more than a decade. The result is that police know the campus very well and are able to respond almost instantly if needed.

COMMUNICATE QUICKLY

Being able to communicate quickly with all members of the BW community is central to the ability to respond effectively in a crisis. It is required for all new students to provide their cell phone numbers in case of an emergency. A mass text message is distributed by the University to inform the campus of what has happened and instructions for safety. Other social messaging systems may be utilized also to inform the campus community.

Faculty

Close relationships are at the heart of the BW experience. With class sizes averaging only 17 students, you can expect to get to know your professors and for them to get to know you.

Your professors will share their wisdom and experience with you on a one-on-one basis, helping you choose classes or assisting you in your search for the perfect internship. And do not think that you will only be able to contact BW faculty via voice or e-mail. Our faculty regularly gives out their home phone numbers. They really do mean it when they say, "call if you have questions."

From corporate executives and lifelong educators to environmentalists and practicing psychologists, BW's more than 300 full-time and part-time faculty hold impressive credentials in their fields. They are dedicated and talented teachers who want to provide you with an educational experience that goes well beyond your textbooks. To see what our faculty teaches and what their current interests are, check out our faculty directory.

ACADEMIC SERVICES

ACADEMIC ADVISING

Are you unsure of your major? Want to talk about how your academic work, co-curricular involvement, experiential learning, and career planning can all fit together? Need help understanding the requirements for your major/minor? Want to make changes to your academic program or advisor? We can help! Stop by Bonds 102.

What is Academic Advising?
Academic Advising at Baldwin Wallace University is a developmental process of faculty members working with students to strategize, develop and implement a plan related to students’ educational, career and personal goals. Through this interactive relationship, students learn how to utilize resources and tools to make effective, self-directed decisions. While this process is a collaborative effort, the ultimate responsibility for making decisions rests with the individual student.

Academic Advising is available to all students who are admitted to Baldwin Wallace University. Advising for full-time, undergraduate day students is provided by faculty and Learning Center specialists and is coordinated by the Office of Academic Advising. Students who have declared a major will be advised by faculty in that department or school. Students whose major is undecided, are advised by a faculty member in a department of interest, a faculty member who works with undecided students or by the Office of Academic Advising.

What can I expect from my academic advisor?
Your advisor can help you adjust to BW, select classes for next semester, review your plan for graduation, and release you for registration. In addition, your advisor can recommend internships, employment and graduate school opportunities. Your advisor cares about how you are doing—academically, professionally and personally.

CORE CURRICULUM

All students must pursue a course of study sufficiently varied to acquaint you with a broad spectrum of human knowledge. In doing so, you must also utilize and develop those skills, which are essential to success in academic work as well as in your personal and professional life. Core courses provide opportunities for you to develop your knowledge and skills in writing, quantitative methods, natural sciences, social sciences, humanities, diversity studies, international studies, fine arts, cultural literacy, and wellness.

MAJORS

Baldwin Wallace integrates the hallmarks of a traditional liberal arts education – critical thinking, problem-solving, writing and speaking skills – with an emphasis on professional and career preparation. More than 90 academic majors are available, including ten in the internationally respected Conservatory of Music. For a complete and current list of majors and minors, please refer to the University Catalog. The University Catalog can be referenced at http://catalog.bw.edu.

The Writing Center
The English Department’s Writing Center assists you with all aspects of writing, including:

- Brainstorming ideas
- Crafting a strong thesis statement
- Organizing or restructuring a paper
- Refining grammar and word choice

Professional writing coaches can also offer tips and techniques to enhance your writing process, including how to improve your own proofreading skills. You can bring any type of text to the Writing Center for feedback, including essays, research papers, lab reports, business reports, tech reports, cover letters, and graduate school application materials.

The Writing Center also provides ESL support.

What can you gain by visiting the Writing Center? Your writing coach can discuss a writing assignment with you to help generate starting ideas, if you’re not sure where to begin. And if you would like objective feedback on your written work, your writing coach can read through your draft with you, noting its strengths and weaknesses and offering helpful suggestions you can use to revise your paper.

To schedule an appointment with a writing coach, go to the BW Smart tab on Blackboard and click on the "Book your Appointment Now" link. The Writing Center is located on the second floor of Ritter Library.

Because academic coaching is most effective when done in person, Writing Center staff will meet with students at the Center on campus and will not conduct sessions via telephone, email, or other "virtual" means. During school closures, the Writing Center will also close and coaches will thus not be available. In such situations, students may either re-schedule appointments or seek writing assistance via the Smarthinking or Grammarly on-line services, accessible via Blackboard.

**Engage - Connect - Believe**
Imagine earning BW credit while discovering the sand dunes of the Moroccan desert, taking a Japanese Art course in Japan, walking past the Eiffel tower in Paris every day, or working for the White House in Washington, D.C. These are just some of the exciting learning opportunities available through the Explorations/Study Abroad Center. Each semester, Baldwin Wallace students travel to countries throughout the world and study at overseas universities. While abroad, students earn credit for courses, develop valuable professional skills, and grow into broad-minded, global citizens.

The Explorations/Study Abroad office (2nd floor student union) has reference materials and applications from recommended partners around the globe including, but not limited to:

- York St. John University (England)
- Ewha University (Korea)
- Kansai Gaidai (Japan)
- Umea University (Sweden)
- Al Akhawayn University (Morocco)
- University of Osnabrueck (Germany)
- Christ University (India)
- MICEFA (France)
- American Business School Paris (France)
- University of College Dublin (Ireland)
- Hong Kong Baptist University (China)
- University of the Sunshine Coast (Australia)
- Kingston University (England)
- University Cape Coast (Ghana)

In addition to individual study abroad programs at partner institutions, Explorations also sponsors Faculty-Led Seminars. These Seminars expose a group of BW students to specific topics in locations throughout the world and vary in length from two to three weeks. These programs allow students to travel abroad with a group of BW students and faculty members. New programs are being planned for upcoming years. So regardless of your individual needs and interests, we can help you find the right study abroad program, whether it be a full semester independent program, a faculty-led seminar, or a summer program.

There are several misconceptions about studying abroad. Here are the facts:

**English is your only language. No problem!** While studying abroad is indeed a great way to learn another language first-hand, neither foreign language study nor proficiency is a requirement. Many foreign universities are located in English-speaking countries or offer courses taught in English. If, however, you wish to enroll in a foreign-speaking university, in collaboration with your advisor, we can help you find the appropriate institution.

**Graduate on time!** Studying abroad takes research and planning. This is particularly crucial with regard to enrolling in courses that will (a) transfer back to Baldwin Wallace and (b) help fulfill your academic requirements. As long as you work with the Explorations Office Staff and your advisor, and secure the necessary pre-approval from faculty, your courses should transfer without a hitch. Over 96% of study abroad students graduate on time.

**Affordable!** You do not have to be independently wealthy in order to study abroad. Not even close. These opportunities are available to all students, regardless of financial background. Both federal and institutional financial aid may be applied to the cost of recommended study abroad programs. Some programs offer additional scholarships to help ease expenses.

**Resume Builder.** It is time to set yourself apart from others! Less than 10% of college graduates study abroad. So, there is no better way to add diversity to your resume! College is about graduating with a diverse experience. Studying abroad will help you get your first job, guaranteed! So what are you waiting for? For more information and assistance in selecting a program, stop by the Explorations/Study Abroad Center. Go ahead...explore your world!

“Own what you can always carry with you...know languages, know countries, know people. Let your memory be your bag.” – A. Solzhen
GENERATION STUDY ABROAD™ COMMITMENT PARTNER

Baldwin Wallace University is a member of the Generation Study Abroad™ campaign, a national initiative of The Institute of International Education (IIE), whose goal is to double the number of students who study abroad by the end of the decade. Over 451,000 eBooks, 106,000 print volumes, over 17,000 digital videos, 86,000 online journal subscriptions and access to more than 270 databases make Ritter Library an important resource for student and faculty research. Ritter Library’s website: [http://www.bw.edu/library/](http://www.bw.edu/library/) provides on- and off-campus access to all its resources. Through Ritter Library’s membership in OhioLINK, BW students and faculty can easily borrow materials from most academic libraries in Ohio, plus several major public library systems. Multimedia equipment (audio/video recorder, iPad, Microsoft Surface, projector, etc.) may also be borrowed from the circulation desk.

Ritter Library’s professional reference staff provides direct assistance to library users in the Reference Area on the main floor, and also by appointment, phone, and email (see Getting Help on the library website). Reference librarians provide library instruction for BW courses, teach information literacy instruction classes, develop subject guides and online tutorials, and are available for one-on-one assistance. The librarians serve as liaisons with academic departments, in order to build the collections and facilitate usage.

Scanners and Jacket Print stations (b/w and color) are available as well as 3-D printers. A computer lab with 23 workstations and 25 additional computer workstations are available throughout the building. Ritter has wireless internet access, study rooms, and student collaborative worktables. Study rooms can be reserved from the library homepage.

Research
Research is an important part of the BW experience. In addition to being dedicated teachers, our professors are passionate scholars and researchers. Because our faculty cares both about their students and their work, they are more than willing to involve you in their latest project or activity. Regardless of your interest, you will have the chance to pursue research in almost every field. And you will not do it alone. You will be guided by an involved and conscientious mentor who will help you find a way to bring your passion to life. Most students find these types of research opportunities invaluable as they launch their careers or apply to graduate or professional schools.

Our Undergraduate Research and Creative Studies (URCS) Program can help provide you with these opportunities. The URCS programs include Summer Scholars, Ovation, Faculty-Student Collaborative Courses and funding opportunities to present your work off-campus.
The Center for Innovation & Growth (CIG), located on north campus, prepares tomorrow’s leaders to change their world. Students of all majors have the opportunity to learn – and practice – skills in creativity, innovation and entrepreneurship built upon a foundation of personal values and integrity. The Center’s mission is to infuse innovation and entrepreneurship campus wide and contribute to regional development.

SIGNATURE PROGRAMS

RATCLIFFE STUDENT FELLOWS & STUDENT-ATHLETE FELLOWS COLLOQUIA (1 semester)

These seminar programs are open to all majors and provide students the unique experience to turn passion into opportunity, develop insights about the entrepreneurial process and think about leadership and innovation guided by integrity. Distinctive relationships will include learning from and meeting with successful leaders, innovators and entrepreneurs. Prospective fellows are nominated for the colloquia by BW faculty, coaches, staff and peers. Upon program completion, fellows can apply for internships with CIG’s Growth Practice or LaunchNET.

GROWTH PRACTICE

The Growth Practice is staffed by Ratcliffe Student Fellows & Student-Athlete Fellows who practice their entrepreneurial mindsets and skillsets by serving as consultants on project teams for real-world clients. Under the leadership of experienced project leaders, CIG interns develop project management skills, conduct primary and secondary market research and receive professional presentation coaching. At the conclusion of each project, CIG interns deliver presentations for clients, often outlining research findings and strategic options to executive leadership teams.
LaunchNET
Powered by the Burton D. Morgan Foundation, LaunchNET is a co-curricular program providing free and confidential venture coaching, idea contests, pitch competitions, networking opportunities and in-class presentations. Open to students of all majors, faculty, staff and graduated alumni, LaunchNET clients have ideas to start something – from new businesses to nonprofits to student groups to events and more. The program is user driven. Our clients do the driving — LaunchNET helps navigate. Getting an idea started is as easy as filling out a Venture Form or stopping by for a visit. LaunchNET has a presence across campus with a main office located downstairs in the Union and an additional office in the Center for Innovation & Growth.

HIGHLIGHTED EVENTS

SPEAKER & NETWORKING SERIES
Each semester, the Center for Innovation & Growth hosts a series of programs featuring forward-thinking entrepreneurs and innovators. From guest speakers to networking events, these CIG programs are always interesting, inspiring and open to BW students and the broader Northeast Ohio community. Please see bw.edu/cig for complete calendar of events.

STUDENT SERVICES

Disability Services for Students (DSS)

Our Mission is to create usable, equitable, inclusive learning environments for qualified students with disabilities by ensuring equal access to all University programs, services, and activities. DSS works with students, faculty, and staff in the development and implementation of reasonable and appropriate accommodations while maintaining the academic standards and course integrity of Baldwin Wallace University.

Our Vision is to enhance services for students with documented disabilities through information dissemination, awareness training, and professional development of faculty and staff while providing academic adjustments and promoting self-determination and independence.

Eligibility for Services
Students are responsible for disclosing information about the disability to DSS and following the process to get registered with our office. Under the ADA and Section 504, a person has a disability if he or she has a physical or mental impairment that substantially limits one or more major life activities (e.g., walking, standing, seeing, speaking, hearing, breathing, learning, working, or taking care of oneself), has a record of such an impairment, or is regarded as having such an impairment.

Registering with Disability Services for Students
The process outlined below is for students with documented disabilities who have been offered admission and are looking to apply for reasonable accommodations and services at Baldwin Wallace University.

1. Self-disclose disability to DSS either in person or by email: disability@bw.edu.
2. Complete and submit the online Application for Accommodations.
3. Submit appropriate documentation (see below).
4. Schedule and attend the Student Welcome Meeting. Upon receipt and review of the application and documentation, DSS will schedule a meeting to discuss the impact, nature and functional limitations of your disability; determine reasonable accommodations (if any); discuss policies, processes, and procedures.

Documentation of Disability
To fully evaluate requests for accommodations or auxiliary aids and to determine eligibility for services, Disability Services for Students (DSS) requires current disability documentation. The documentation should include an evaluation by an appropriately qualified professional that makes evident the current impact of the disability as it relates to the accommodation(s) requested. The cost of the documentation is the responsibility of the student. Submission of documentation does not guarantee approval of the requested accommodation(s).

School plans such as Individualized Educational Plans (IEP) or 504 plans are not sufficient documentation to determine eligibility for academic accommodations. However, current Evaluation Team Reports (ETRs) or medical/psychological reports may serve as appropriate documentation if they meet our documentation guidelines.

General documentation guidelines and verification forms are available on our website: www.bw.edu/DisabilityServices. These documents are designed to assist students and their treating/diagnosing professional(s) in preparing the required information to evaluate the accommodation request.
**Reasonable Accommodation**

An accommodation is a modification that is made to a course, program, service, job, activity, or facility that eliminates or minimizes disability-related barriers. For an accommodation to be deemed reasonable, it must not compromise the essential requirements of a course, program, job, activity, or facility, and it must not cause undue administrative or financial hardship. Also, it must not compromise the safety of the student receiving the accommodation or of others, and it must not fundamentally alter a course or program. An accommodation may be denied and deemed unreasonable if it:

1. Imposes an undue financial and administrative burden;
2. Fundamentally alters University housing policies;
3. Poses a direct threat to the health or safety of others, or would cause or caused substantial property damage to the property of others, including University property; and
4. Fundamentally alters the nature of University operations.

**Please be advised:**

1. Accommodations are determined on an individual, case-by-case basis.
2. Academic accommodations must be requested each semester through the online system.
3. Accommodations received in high school or at another university do not automatically “transfer” to Baldwin Wallace University.
4. The process to request accessible housing is available on our website.

Online payments are accepted through the Payment Portal accessible from the link under “Make Your Tuition Payment” found at https://www.bw.edu/tuition/payments/. A 2.85% convenience fee will be charged on credit card payments (VISA, MasterCard and Discover only). Use a check online to avoid the convenience fee. BW has an interest free monthly payment plan. Enroll online through the Payment Portal accessible from the link found under the “Monthly Payment Plans” at https://www.bw.edu/tuition/payments/.

Tuition charges: All students taking 12 credit hours or more will be charged the full-time rate. Students taking more than 18 credit hours, for any type of class, will be charged at the full-time rate plus the daytime student hourly rate for each credit hour over 18. Those registered for fewer than 12 credit hours will be considered part-time and will be charged on a per credit hour basis. See the catalog for the listing of fees and information about refunds. All tuition and related academic fees are due by the first day of class. Subsequent term registration will be permitted only when accounts are paid in full, except when a BW payment plan is in place, providing monthly payments have been kept current. Students who have not fully met their financial obligations to the University are subject to sanctions including holding back on degree conference or confirmation as well as the release of academic transcripts. Payment plans are permitted however and sanctions will not be lifted until accounts are paid in full.

The Office of Commuter Services (OCS)
As part of the Office of Residence Life the mission of the Office of Commuter Services (OCS) is to provide direct support to traditional and non-traditional undergraduate and graduate students who commute to the Baldwin Wallace University campus. Our mission is achieved through programs and services that assist students in making connections to campus life and involvement opportunities.

Along with serving as a resource to students, The Office of Commuter Services (OCS) is responsible for advising the Commuter Activity Board (CAB) and the upkeep of the Commuter Lounge in Heritage Hall, 114 Tressel Street, Berea, Ohio, right across from the Durst Welcome Center. The Commuter Lounge is available to all commuting students and can be accessed with your Jacket Express card. The lounge is open every day from 6:00 AM to Midnight when classes are in session. Lounge amenities include lockers, a refrigerator, microwave, computers, and a Keurig machine (bring your own K-cups).

Additional services provided by our office include special events such as Commuter Appreciation Week, Commuter Coffee Hour, Dine and Dash, April Reign activities and Rally Before the Reign.
Department of Safety & Security

Recognizing the need to insure a safe environment for the entire BW Community, the Department of Safety and Security Services works closely with the Berea Police Department in patrolling our campus. Other functions include student escort services, vehicle lockout assists, and crime prevention programs.

Anyone needing assistance or wishing to report a possible crime should contact the Department of Safety and Security Services at 440-826-2000. Those not having an emergency can contact the department at 440-826-2336. If you are missing something and suspect that it has been stolen, report the item to the Department of Safety and Security Services and to your hall director if you are a residential student. Insurance companies require that a theft report also be filed promptly with the local police department.

Crime Reporting

During the academic year, the Department of Safety and Security produces a weekly media report summarizing criminal incidents that are reported to Safety and Security by a victim or by other involved parties. This report is submitted to The Exponent, BW’s student newspaper, and is published at the discretion of the editors. There is a log of these summarized incidents available for public review, located at Safety and Security.

The Division of Student Affairs, in conjunction with the Department of Safety and Security, will make timely warning reports to the campus community regarding certain crimes that represent a continuing threat to the campus community. In addition to being posted in public areas, this information may be distributed by campus mail and/or electronic mail as well as text messaging and other social messaging.

In accordance with the Campus Security Act, Baldwin Wallace University provides crime statistics, fire statistics and security information to current and prospective students and current and prospective employees. The Safety and Security Department serves as the “clearing house” in the gathering of crime data and judicial referrals from those with “significant responsibilities for students and campus activities.” Upon request, the Berea Police Department, the Berea Fire Department, the Cleveland Police Department, the Beachwood Police Department, the Cleveland Metroparks Ranger Department, and the “non-campus” facility administrators report pertinent criminal incident information, from the required geographical areas, to Baldwin Wallace University Safety and Security. All gathered criminal and referral information is then compared to minimize multiple postings for the same reported criminal incidents or arrests, and then incorporated in the annual Safety and Security brochure. This complete pamphlet can be viewed on the BW Web site by selecting Safety and Security under the offices tab. The complete address is: www.bw.edu/about/offices/safety-security/index. A printed copy of this brochure will be provided, upon request, by contacting Safety and Security at 440-826-2336. Printed copies are also available for pick-up at the offices of Safety and Security, Admission and Human Resources.

University Vans & Transportation

Eight, seven-passenger mini-vans are available to transport members of the BW community to and from various academic, cultural, social, and co-curricular events. Advance reservations are required. For reservations call the Purchasing Department at 440-826-2444. Priority is on a first come, first serve basis. You must be or have a driver who has been authorized and certified to drive a University vehicle. Certification is obtained by taking a van skills class that is offered through the University. For more information about this class, call the Purchasing Department.
**Student Activities Center (SAC)**

This facility west of the Union provides a club-like atmosphere for entertainment programming on campus. It features a pulsating sound and dance light system, a large video projection screen and projector, and a 20’ X 30’ stage. Comedians, live bands, receptions, formal dances, and everything in between attract students to many all-campus events held at this facility. The SAC holds up to 200 people on the main floor and 50 on the upper level.

The SAC is available for recognized BW organization events seven days a week by reservation only. The SAC is managed and staffed by a BW student staff, so all reservations must be made at least two weeks prior to the event to allow for proper scheduling. To make a reservation request for your officially recognized student organization, visit [http://ems.bw.edu](http://ems.bw.edu) and login with your BW username and password. Or you can stop by the scheduling office, call 440-826-2354, or email [Union@bw.edu](mailto:Union@bw.edu). Food arrangements are made through Dining Services 440-826-2412.

STATEMENT OF STUDENT RESPONSIBILITY

Baldwin Wallace University based in the traditions of the United Methodist Church, “is a community committed to the learning and growth of students” (Baldwin-Wallace College, 1996-98 Catalog, p. 1). As a church-related university, Baldwin Wallace strives to maintain the highest standards of study and conduct and anticipates that each student will assist in this endeavor.

The University expects high moral and ethical conduct of its students. All students, faculty and staff members share the responsibility of maintaining this high level of behavior. When students are admitted to Baldwin Wallace University, it is assumed that they are aware of the established University policies and are endowed with a high level of responsibility for their personal behavior, as well as for the University.

The Baldwin Wallace University Community is committed to fostering a campus environment that is conducive to academic inquiry, productive campus life, and thoughtful study and discourse. A community exists on the basis of shared values and principles. At Baldwin Wallace University, student members of the community are expected to uphold and abide by certain standards of conduct that form the basis of the Student Code of Conduct. These standards are embodied within a set of core values that include integrity, fairness, respect, community and responsibility. When members of the community fail to exemplify these values, campus conduct proceedings are used to assert and uphold the Student Code of Conduct.

PHILOSOPHY

The student conduct process at Baldwin Wallace University is not intended to only punish or discipline students. Rather, it exists to protect the interests of the community, and to challenge those whose behavior is not in accordance with our core values. Sanctions are intended to challenge students’ moral and ethical decision-making and to help them bring their behavior into accord with our community values. When a student is unable to conform his/her behavior to community expectations, the student conduct process may determine that he/she should no longer share in the privilege of participating in this community. Students should be aware that the student conduct process is quite different from criminal and civil court proceedings. Procedures and rights in student conduct proceedings are conducted with fairness to all, but do not include the same protections of due process afforded by the courts.

2. The Director of Student Conduct will oversee the formation and composition of all conduct bodies as well as determine which conduct body will be authorized to hear each complaint.

3. The Director of Student Conduct will develop policies for the administration of the conduct system and procedural rules for the conduct of hearings, which are not inconsistent with provisions of the Student Code of Conduct.

4. The Director of Student Conduct will design and implement training sessions on a regular basis for all participants in the administration of the conduct system.

5. Decisions made by a conduct body will be implemented pending the normal appeal process.

7. The President of the University is ultimately responsible for the implementation of the Student Code of Conduct. The President designates the Vice President of Student Affairs and Dean of Students as the administrator of the Code. Thereafter, the Vice President of Student Affairs and Dean of Students appoints the Director of Student Conduct as the day-to-day manager of the Code.

8. The Director of Student Conduct will report to the Vice President of Student Affairs and Dean of Students on a regular basis regarding the administration of the Student Code of Conduct.

9. Should a situation arise whereby the Director of Student Conduct is unable to perform his/her duties, the Vice President of Student Affairs and Dean of Students will select and appoint a person to serve with or in the place of the Director of Student Conduct.

**Expectations for Student Conduct**

**A. Jurisdiction over Student Conduct**

The Student Code of Conduct is maintained online for all students. Students are charged with the responsibility of having read, and agreeing to abide by, the provisions of the Student Code of Conduct and the authority of the student conduct process. The Student Code of Conduct and the student conduct process apply to the conduct of individual students and University-affiliated student organizations. Because the Student Code of Conduct is based on shared values, it sets a range of expectations for the Baldwin Wallace University student no matter where or when their conduct may take place. Therefore, the Student Code of Conduct will apply to behaviors that take place on the campus, at University-sponsored events, and may also apply off-campus, when the administration determines that the off-campus conduct affects a substantial University interest. A substantial University interest is defined to include:

- Any action that constitutes a criminal offense as defined by Ohio law. This includes repeat violations of any local, state or federal law committed in the municipality where the University is located.
- Any situation where it appears that the student may present a danger or threat to the health or safety of him/herself or others.
- Any situation that significantly impinges upon the rights, property or achievements of self or others or significantly breaches the peace and/or causes social disorder.
- Any situation that is detrimental to the educational interests of the University.

The Student Code of Conduct may be applied to conduct that takes place during the time a person is enrolled as a student, including during intra-semester breaks and between semesters. Further, the Student Code of Conduct applies to guests of community members, whose host(s) may be held accountable for the misconduct of their guests. Visitors to and guests of Baldwin Wallace University are also protected by the Student Code of Conduct, and may initiate grievances for violations of the Student Code of Conduct committed by members of the Baldwin Wallace University community against them. Baldwin Wallace University may also extend its jurisdiction to misconduct that occurs prior to, but is not reported until after the graduation of the offending student, as long as the misconduct is reported within six months of its occurrence. Otherwise, there is no time limit on reporting of violations of the Student Code of Conduct, as long as the offending student is still enrolled at Baldwin Wallace University. However, the longer someone waits to report an offense, the harder it becomes for Baldwin Wallace University to obtain evidence and witness statements, and to make a determination regarding alleged violations. Those who are aware of misconduct are encouraged to report it as quickly as possible to the Office of Student Conduct and/or Safety and Security.
Violations of Law
Violations of federal, state and local laws are incorporated as offenses under the Student Code of Conduct. When an offense occurs over which the University has jurisdiction, the University conduct process will usually go forward notwithstanding any criminal complaint that may arise from the same incident. Should a student withdraw from the University when a criminal complaint is made, it is the typical practice of the University to pursue investigation and resolution of campus conduct matters, regardless of the fact that the student has withdrawn.

When a student is accused, arrested, charged or indicted for a violent or drug-related off-campus crime or another offense of concern, the University may elect to take action against that student for violation of the Student Code of Conduct, which incorporates violation of local, state and federal laws as code infractions.

When it has reasonable cause to separate a student from the community, the University may suspend a student for a reasonable time pending the scheduling of a campus hearing for violation of the Student Code of Conduct. The University reserves the right to exercise its authority of interim suspension upon notification that a student is facing criminal investigation and/or complaint. The University will permit a student who receives an interim suspension to request a meeting with the Vice President of Student Affairs and Dean of Students to show cause why an interim suspension is not merited. Regardless of the outcome of this meeting, the University may still proceed with the scheduling of a campus hearing.

When criminal charges are pending, the University may be delayed or prevented from conducting its own investigation, and moving forward with a campus hearing. In such an instance, the University will delay its hearing until it can complete an internal investigation, or obtain from law enforcement sufficient information upon which to proceed.

It may be in the best interests of students accused of crimes to withdraw from the University until the criminal charges are resolved. The University has a procedure for voluntary withdrawals under the following conditions. If the alleged victim of the crime is a student, the alleged victim must approve of the withdrawal and delay of the hearing. The accused student must comply with any and all campus efforts at investigation that will not prejudice their defense in the criminal trial, and the accused student must agree that in order to be re-instated to active student status, they must first be subject to and fully cooperative with a campus hearing, and must comply with any sanctions that are administered.

Special Provisions

1. In most circumstances, Baldwin Wallace University will treat attempts to commit any of the violations listed in the Student Code of Conduct as if those attempts had been completed.

2. As necessary, Baldwin Wallace University reserves the right to initiate a complaint, to serve as complainant, and to initiate conduct proceedings without a formal complaint by the victim of misconduct.

3. Baldwin Wallace University will not tolerate intentional false reporting of incidents. It is a violation of the Student Code of Conduct to make an intentionally false report of any policy violation, and it may also violate state criminal statutes and civil defamation laws.

4. When members of groups, individuals acting collusively, or members of an organization act in concert in violation of any policy, they may be held accountable as a group, and a hearing may proceed against the group as joint accused students.
5. Good Samaritan Policy: The Baldwin Wallace University Community encourages the reporting of crimes by victims to University officials and, if appropriate, law enforcement authorities. Sometimes, victims are hesitant to report to University officials because they fear that they themselves may be accused of policy violations, such as underage drinking at the time of the incident. It is in the best interests of this community that as many victims as possible choose to report to University officials. To encourage reporting, Baldwin Wallace University pursues a policy of offering victims of crimes immunity from policy violations related to the incident.

6. The welfare of members of our community is of paramount importance. At times, community members on and off-campus may need assistance. Baldwin Wallace University encourages you to offer help and assistance to others in need. Sometimes, you may be hesitant to offer assistance to others, for fear that you may get into trouble (for example, a student who has been drinking underage might hesitate to help take a sexual misconduct victim to the Residence Life staff or Safety and Security). Baldwin Wallace University pursues a policy of limited immunity for those who offer help to others in need. While policy violations cannot be overlooked, the University will provide educational options, rather than sanctions, to those who offer their assistance to others in need.

These rules apply to all students, undergraduate, professional and graduate. Any student found to have committed the following misconduct is subject to the sanctions outlined in Section H. Unacceptable conduct includes, but is not limited to, the following:

2. Any complaint should be submitted as soon as possible after the incident takes place, preferably within 24 hours, though complaints may be possible months or years after a violation, depending on the circumstances.

3. Written complaints will be prepared and filed with the Director of Student Conduct or the person designated by the Vice President of Student Affairs and Dean of Students as the individual responsible for the administration of the Student Conduct System.

4. Notice of conduct proceedings and related materials will be expediently sent to the student’s BW e-mail address.

5. A time will be set for a hearing, not less than three (3) nor more than fifteen (15) University business days after the student has been notified of the complaint. Time limits for scheduling of hearings may be changed for reasonable cause at the discretion of the Director of Student Conduct.
6. On occasion, as a result of the timing of a report or the University calendar, it will not be possible for the Director of Student Conduct to convene the appropriate board for a hearing. On such occasions, the Director of Student Conduct will determine the appropriate alternative hearing format to be used. The Director of Student Conduct will also take action if the appropriate board is unable to reach a decision within two class days after the conclusion of a hearing.

**B. STUDENT RIGHTS IN THE CONDUCT PROCESS**

*Applies to both complainant and the accused student, except where noted*

1. To view a copy of the written complaint and have the complaint explained clearly and fully at every level of the conduct process.

2. To request in writing to the Director of Student Conduct that separate hearings are conducted, if more than one student has been accused of a Code violation arising out of a common incident.

3. To hear testimony and/or see all written statements concerning the complaint.

4. To be informed of the names of all witnesses who will provide oral and/or written statements, unless the Director of Student Conduct makes special provision for a witness to remain anonymous, in the event that it is determined that the identity of the witness is not critical information necessary for a party to fully respond to the testimony/written statement.

5. To refute oral and/or written statements made by witnesses and other parties.

6. To have a fair and prompt hearing, and to have any delays in scheduling explained.

7. To be notified promptly of the resolution of the complaint.

8. To be advised of the appropriate appeal process (complainants do not have the right to appeal all types of violations).

**C. STUDENT RESPONSIBILITIES IN THE CONDUCT PROCESS**

1. The University expects students to assume responsibility for their own actions during the conduct process.

2. Students are expected to appear when requested to do so throughout the entire process, and failure to do so may result in a complaint for failure to comply with the directives of a University official.

3. If the student fails to appear and proper notification has been verified, the hearing will proceed.

4. Sanctions may be imposed upon a student refusing to appear or cooperate.

5. Throughout the conduct process, students have the responsibility to present truthful information.

6. Any student found to have willfully presented false or misleading information will be subject to notice and a hearing on a complaint of abuse of the campus conduct system.

7. Students are expected to complete the sanctions issued at any level in the conduct process. Failure to do so may result in further conduct action.
D. STUDENT ORGANIZATION RESPONSIBILITIES IN THE CONDUCT PROCESS

1. Student organizations are expected to adhere to all applicable University rules.

2. The University reserves the right to determine the appropriate time, place, content, and manner for conducting organizational activities, as well as the posting and distribution of materials on campus. Consequently, the University may deny or restrict the activities of student organizations.

3. Student organizations are expected to exercise good judgment in planning and promoting their activities.

4. Failure to exercise good judgment may result in conduct action being initiated against the organization. Thus, policies, procedures and sanctions set forth within the Student Handbook apply to student organizations collectively as well as to individual students.

5. Officers of student organizations are responsible for assuring compliance with policies and for representation when conduct proceedings are initiated.

6. Whenever a student organization is involved in any proceeding under this Code, its president (or other officer if authorized by such organization) will represent such organization in all conferences and hearings under this Code.

E. DIRECTOR OF STUDENT CONDUCT

1. The Director of Student Conduct may conduct an investigation to determine if a complaint has merit and/or if a complaint can be resolved by mutual consent of both parties involved. Such resolution will be final and there will be no subsequent proceedings.

2. If in the course of an investigation, a student accepts responsibility for the allegations of the complaint, the Director of Student Conduct will conduct an informal hearing. This hearing will be used to determine the sanctions, only after the accused student has accepted responsibility for a violation(s).

3. After reviewing the incident report, the Director of Student Conduct will determine how the complaint will proceed. A complaint can be dismissed (either because it does not constitute a violation or because there is insufficient evidence to establish reasonable cause) or a complaint can be assigned for a formal hearing to an administrative council.

4. Once the complaint is assigned to an Administrative Council, the Director of Student Conduct monitors the progress of the complaint through the system, ensures correct procedures are followed, observes deliberation and advises when needed, and maintains a final record of the complaint.

5. If an appeal is requested, the Director of Student Conduct determines if grounds for an appeal exist, and if so assigns the appeal to the appropriate conduct body and maintains a record of the resolution.
F. COMPLAINT ASSIGNMENT BY THE DIRECTOR OF STUDENT CONDUCT

1. Informal Hearing (see E.2. above)

2. Administrative Council
   a. Membership: One or more trained staff from the Division of Student Affairs including Residence Life (Area Coordinators and Hall Directors), Student Life and members of the Division’s Senior Staff; University Faculty; and/or representatives from Academic Affairs.
   b. Training: Members will receive training on a regular basis. Any member who does not receive the required training cannot serve.
   c. Function: Hear all types of complaints, including, but not limited to, sensitive complaints that require a prompt decision, incidents of alleged violence, misconduct of a general or specific nature, and academic dishonesty.
   d. Records of hearing: Maintained by Director of Student Conduct

G. PROCEEDINGS THAT GOVERN ALL HEARINGS BY ANY CONDUCT BODY

Students have the right to fundamental procedural fairness within an impartial conduct system. A conduct body member who cannot hear the complaint in an unbiased manner must excuse herself/himself from the complaint. Students may only be found in violation of policy if evidence brought forward during the investigation and/or hearing persuades a majority of the conduct body members that it is more likely than not that the accused student’s actions violated the Student Code of Conduct. The conduct body may have access to records of previous hearings to aid in its sanction decisions, and in rare circumstances (such as sexual misconduct complaints where a pattern or series of offenses is suspected), records of previous similar violations of the Student Code of Conduct may be considered during the hearing itself. It is the responsibility of the Director of Student Conduct to bring this information to the attention of the conduct body. Conduct body members may not reveal the details of the proceedings, including deliberations, unless prescribed by the Director of Student Conduct, upon advice of legal counsel. Hearings will be conducted by a conduct body according to the following guidelines:

1. Hearings will be conducted in private. All student members of the conduct body must be in good standing with the University and have earned a cumulative GPA of at least 2.0. All faculty members must be full-time members of the University faculty.

2. Admission of any person to a hearing will be at the discretion of the conduct body. Likewise, witnesses and exhibits that are not disclosed in advance of the hearing may be excluded at the discretion of the conduct body.

3. In hearings involving more than one accused student, if one or both of the accused students has not already requested separation then the chairperson of the conduct body, in his or her discretion, may permit the hearings concerning each student to be conducted separately.

4. Proceedings may be taped using a recording device, at the discretion of the Director of Student Conduct.

5. At each hearing, the council of peers will select a chairperson to preside over the proceeding and a recorder to keep a summary of the hearing. If the conduct body consists of only one hearing officer then that individual will serve as recorder and chairperson.
6. The complainant and the accused student each have the right to have one advisor present at the hearing. They must inform the Director of Student Conduct of the name of the advisor at least one (1) University business day prior to the hearing date. The advisor must be a person employed by or enrolled at Baldwin Wallace University, unless the Director of Student Conduct grants special permission. The advisor cannot be an attorney. (Provisions pertaining to the Sexual Misconduct Policy may apply). The complainant and the accused are responsible for presenting their own arguments and, therefore, the advisor is not permitted to speak or to participate directly in any hearing before a conduct body. Advisor and advisee may exchange notes in the hearing, or talk outside during a break, but students must speak on their own behalf during the hearing. At any time, should the advisor step outside of their permitted role, he or she may be ejected from the hearing at the discretion of the Chairperson or Director of Student Conduct. The hearing will then proceed without an advisor for that party.

7. The complainant, the accused student, and the hearing chairperson will have the privilege of presenting witnesses, all of whom may be questioned by the conduct body and the parties. It is the responsibility of the complainant and the accused to contact their own witnesses, request their attendance at the hearing, and notify the Director of Student Conduct of the witnesses’ names at least one (1) University business day prior to the hearing date. The Director of Student Conduct may also contact witnesses to appear at the hearing. The hearing may proceed even if all witnesses are not present. The Director of Student Conduct or the hearing chairperson may limit the number of witnesses permitted to attend the hearing, if it is clear they will only offer redundant, repetitive or otherwise unessential testimony or information.

8. Complaint: The chairperson of the conduct body will read the complaint(s) to the accused student(s).

9. Response: The accused student(s) will accept or reject each accusation of the complaint.

10. Presentation by the Complainant: The complainant may present evidence, including witnesses, related to the offense.

11. Presentation by the Accused: The accused may comment upon the evidence and may present additional evidence, including witnesses.

12. Questioning: Each party may question the witnesses of the other, and the conduct body may also question witnesses and parties.

13. Clarification of the Evidence: The complainant and/or members of the conduct body may re-examine evidence against the accused student in view of the evidence presented during the hearing.

14. Summary Statement: At the conclusion of the hearing the complainant and the accused may each make a brief summary statement.

15. Pertinent records, exhibits and written statements may be accepted as evidence for consideration by a conduct body at the discretion of the Chairperson. All evidence considered by the body must be relevant and credible. The Chairperson has the responsibility to control all evidence that is inadmissible.

16. All procedural questions are subject to the final decision of the Chairperson of the conduct body, who may consult with the Director of Student Conduct where necessary.
17. The conduct body’s determination will be made on the basis of whether it is “more likely than not” that the accused student(s) is/are responsible for violating the Student Code of Conduct as alleged.

18. The conduct body will promptly determine (by majority vote if the conduct body consists of more than one person) whether or not the student is found responsible for each allegation and may orally communicate the resolution to the parties. The Chairperson will prepare a written deliberation report to be included in the student’s conduct file detailing the finding and how the conclusion was reached, the evidence cited by the body in support of its finding, and any evidence that the body excluded from its consideration, and why. This report should conclude with the recommended sanctions and must be submitted to the Director of Student Conduct within 48 hours after the end of deliberations. Within five (5) University business days of receiving the report the Director of Student Conduct will e-mail the results to the accused student, and implement any sanctions. Where the complaint involves sexual misconduct, the alleged victim is also entitled, without any qualification or condition, to know the outcome and sanction and to have such in writing. Where the complaint involves stalking, arson, assault, burglary, vandalism, kidnapping, or robbery, the victim may be informed of the outcome and sanction only if the accused is found to be in violation. Generally, sanctions will remain in place despite any appeals that are requested, unless the Vice President of Student Affairs and Dean of Students decides upon application to stay the implementation of sanctions.

19. A record, including incident report, resolution (and recording, if applicable), will be kept for all hearings before a conduct body. The record is the property of Baldwin Wallace University. The Director of Student Conduct will retain all written records for safekeeping for the standard maintenance period of the University. All recordings will be retained by the Director of Student Conduct until the student(s) has(ve) exhausted their right of appeal. For complaints that result in suspension or expulsion, the Director of Student Conduct for safekeeping will retain all recordings, if applicable, for two years from the time the final result of the complaint is reached.

20. If the party charged in a complaint has been properly served with a copy of the complaint and fails to attend the hearing, the judicial body may in its discretion continue the case for a reasonable time or may proceed to consider the alleged offenses, investigate the charges and arrive at a resolution.

SPECIAL PROVISIONS FOR SEXUAL MISCONDUCT/DISCRIMINATION COMPLAINTS
   a) For sexual misconduct complaints and other complaints of a sensitive nature, whether the alleged victim is serving as the complainant or as a witness, alternative testimony options will be given, such as placing a privacy screen in the hearing room, or allowing the alleged victim to testify from another room via closed circuit.

   b) The past sexual history or sexual character of a party will not be admissible by the other party in hearings unless such evidence is determined to be highly relevant by the Chairperson. All such evidence sought to be admitted will be presumed irrelevant, and any request to overcome this presumption by the parties must be included in the complaint/response or a subsequent written request, and must be reviewed in advance of the hearing by Director of Student Conduct.

   c) The alleged victim in any complaint alleging sexual misconduct will be notified in writing of the outcome and any sanction and will be kept apprised of the status of any appeal requests or grants.

Appeals of sexual misconduct, violence and discrimination cases are outlined in related sections of the Code of Conduct.

Denial of the appeal means the disposition of the complaint by the hearing body is upheld.

6. If an appeal is granted by the Director of Student Conduct, the appellant will be notified in writing within five (5) University business days. An appeal hearing will be promptly scheduled by the Director of Student Conduct with the Vice President of Student Affairs and Dean of Students or the Vice President for Academic Affairs.

student organization, or any other person to seek redress in the public judicial system for any civil or criminal
injury which he/she believes has been done to him/her or it.

Amendment
1. Amendment by the Board of Trustees: This Code may be amended by action of the Board of
Trustees of Baldwin Wallace University. Before the adoption of an amendment, the Student Affairs
Committee of the Board will consult with the President, the faculty and the Student Senate
concerning the proposed amendment, and after such consultation, submit its recommendations to the
Board concerning the proposed amendment prior to the meeting at which such amendment is
adopted.
University policies and procedures have been established to provide an environment conducive to human growth, to reflect the values to which Baldwin Wallace University (BW) subscribes, to recognize the proximity in which students live with one another, and to acknowledge the developmental capabilities of students as they progress through college. Baldwin Wallace’s expectations, policies and practices recognize opportunities afforded by the age of majority (18 years of age and older in Ohio) to the extent that they do not infringe upon the academic mission of the University, the sensibilities of others, the opportunities and settings that facilitate the coming together of persons of different persuasions and backgrounds, and the values that evolve from our heritage as a university related to the United Methodist Church.

**Academic Honesty Policy** can be found at https://my.bw.edu/Academics/Academic-Affairs/Documents/Academic%20Honesty%20Policy.pdf and is also made available through the Academic Affairs site on myBW (BW’s internal portal system).

**Alcohol Policy**
Baldwin Wallace University is located in a state and community which have laws and ordinances pertaining to the sale, possession and consumption of alcoholic beverages. Under Ohio law, a person must be 21 years old in order to consume or purchase beer or any other alcoholic beverage. It is against the law in the State of Ohio to carry an open bottle of any alcoholic beverage on the street or in a motor vehicle.

Additionally, students of legal drinking age are expected to act responsibly when consuming alcoholic beverages. As members of the BW Community, students have a responsibility to assist other students in duress due to irresponsible alcohol use.

In compliance with the law in the State of Ohio, and in the interest of the safety of all students, BW enforces the following alcohol policies.

- Baldwin Wallace prohibits the sale, possession, manufacture and consumption of alcoholic beverages in public areas of the University (including, but not limited to, areas outside University buildings, bathrooms, hallways, classrooms, stairwells, lounges).

- A person is not permitted to carry an open container of alcohol on the street, in a motor vehicle, on a motorcycle, or in public areas of the University.

- A person must be 21 years old to consume alcoholic beverages.

- Absolutely no alcohol is permitted in any residence hall room in which everyone present (including guests) is not 21 years of age or older.

- No alcoholic beverages are permitted in any of the freshman residence areas, the wellness halls, substance free living areas, or the SPROUT houses.

- If you are 21 years of age or older, you may consume alcohol in your room with the door closed.
- Public intoxication by persons of any age is prohibited.

- As student safety is the University’s main priority with regard to alcohol, we establish reasonable limits on alcohol amounts for those of legal age. The amount of alcohol allowed in a University-owned residence by a student who is of legal drinking age is limited to one unit per person of age, with a maximum of two units per room/apartment/house. One unit is defined as one case (24 – 12 oz. containers) of beer/malted beverage OR two (1 L) bottles of wine OR one (1L) bottle of spirits, OR a reasonable combination of these types.

- All drinking games (such as quarters, beer pong, boat races, etc.), at registered or non-registered campus functions, are prohibited.

- University funds cannot be used for the purchase of alcoholic beverages.

- Common source containers (e.g., kegs and beer balls) are prohibited.

- Devices for rapid consumption (e.g., funnels) and all other alcohol-related paraphernalia are prohibited.

- Persons serving or providing alcohol to minors are in violation of the University Alcohol Policy.

- Empty alcohol beverage containers are not permitted within the residence hall rooms/houses of students under the age of 21.

**Registered Party**
A “registered party” is defined as a party wherein alcohol may be consumed. Registered parties are permitted in the following locations: Student Activities Center, Pop Collins Tennis Courts, North Quad, Klein Field, and the Union. There are two types of parties that must be registered:
- Bring Your Own Beverage (BYOB) party must be approved and registered with the Union Administration Office at least two weeks prior to the event.
- F-Class Permit party must be approved and registered with the State of Ohio. An F-Class Permit party is a party where alcoholic beverages are sold.

**Procedure for Approval of a Registered Party**
The group sponsoring a registered party must observe the following procedures:
- If alcohol will be served at the party, the sponsoring group must obtain a permit form from the Union Administration Office, complete the form, send the completed form to the State of Ohio, and submit the State’s approval/denial form to the Union Administration Office. (Processing takes 3-5 weeks.)
- If the party is BYOB, the sponsoring group must obtain a registration form from the Union Administration Office, complete the form, and submit the form to the Union Administration Office for approval at least three (3) University business days prior to the party.
At all parties:

1. University ID’s will be checked or scanned in order to ascertain that individuals attending a registered party are of legal drinking age.

2. Students of legal drinking age must be identified by a hand stamp or wrist band.

3. The bar must be placed in an area with only one entrance.

4. The bartender must check each individual’s hand stamp or wrist band in order to ascertain that he/she is of legal drinking age.

5. If alcohol is being sold, only one alcoholic beverage may be purchased at a time.

6. If alcohol is being sold, at least one security officer and possibly more officers (depending on the size of the party) must be hired and present at the party.

7. An adequate supply of food and nonalcoholic beverages must be provided.

8. Registered parties may only be held on Fridays and Saturdays (unless otherwise approved) and the parties must be concluded by 1:30 AM.

9. The sale and/or distribution of alcohol must cease at 1:00 AM.

UNIVERSITY PROCEDURES

All visitors must also adhere to these requirements. If a student is intoxicated and University staff views the person as unable to care for him/herself, the staff will have the student transported to the hospital. This action will be taken to protect the student and the community, and will be the financial responsibility of the student.

The University maintains the right to dispose of alcohol in instances when a person under 21 is consuming, even if a person over 21 years of age is present, or when there is alcohol in excess of the established limits. In accordance with state law, grain alcohol is prohibited. Driving under the influence is both a violation of campus policy and an offense for which referrals for prosecution are made to local law enforcement authorities.

Baldwin Wallace affirms the principle that students, faculty and staff have a right to be free from any type of discrimination or intimidation by any member of the University Community or his/her guest(s) with respect to sexual orientation, racial or ethnic background, religious beliefs, disability, gender, or age. Discrimination or intimidation in any form is unacceptable conduct.

Drug Policy and Procedures
The use, possession, sale and/or distribution of illegal and unauthorized drugs is a serious matter involving violations of Federal and Ohio laws and against Baldwin Wallace University policy. BW will not permit the use of recreational or medical marijuana on university property.

Reasonable suspicion of drug use may exist when marijuana is smelled and any one of the following circumstances occurs:

- Presence of drug paraphernalia such as, but not limited to bongs and clips
- Towels under a door
- Tape around a door
- Fans blowing in at otherwise unlikely time or manner
- Absence of ashtrays in presence of smoke or odor of smoking
- Open air freshener or laundry sheets
- Presence of paper towel cardboard cores
- Burning of incense or candles which are prohibited for safety reasons

Residents of the room are responsible for all behavior in the room, as are any other persons in the room at the time the offense occurs.

In determining the sanctions for violations of the drug policy, the University conduct body will consider all circumstances of the complaint, including the drug involved, the particular act, the number of prior violations by the student, and the threat to the safety and health of the University Community in general. The University considers the sale/distribution of drugs to others to be a particularly serious offense.

Failure to Comply
Being uncooperative or refusing to comply with the directions of a University official, including Resident Assistants and Hall Directors, is prohibited.

Such prohibited activity includes, but is not limited to, betting on, wagering on, or selling pools on any BW, University or professional athletic event; possessing on one’s person or premises (e.g., room, residence unit, car) any card, book or other device for registering bets; knowingly permitting the use of one’s premises or one’s telephone or other electronic communications device for illegal gambling; knowingly receiving or delivering a letter, package or parcel related to illegal gambling; offering, soliciting or accepting a bribe to influence the outcome of an athletic event; and, involvement in bookmaking or wagering pools with respect to sporting events.
Hazing
All acts of hazing by any individual student, or University registered student club or organization, or any of its members or alumni are prohibited. Students are entitled to be treated with consideration and respect, and no individual may perform an act that is likely to cause physical or psychological harm or social ostracism to any other person within the University Community. Accordingly, the following behavior is expressly forbidden as hazing when related to the admission, initiation, pledging, joining, or any other group-affiliation activity:

a. Physical abuse (on or off campus), including but not limited to paddling, slapping, kicking, choking, scratching, exposure to extreme water temperatures (i.e. cold or hot), and the consumption of disgusting and/or dangerous concoctions;

b. Causing excessive mental stress, including but not limited to placing prospective members of an organization or group in ambiguous situations which lead to confusion and emotional stress and sleep deprivation;

Violation of this policy exists irrespective of the voluntary or consensual participation in the hazing activity by the person being hazed.

Irresponsible Behavior
Participation in activities that elicit public alarm, disturb the public peace, threaten or endanger personal well-being or private property is prohibited.

Parking
Permits, including handicap permits, are not transferable between persons. Automatic sanction for fraudulent registration and/or transfer between members of the BW Community and alteration, reproduction or illegal use of parking permit, including handicap permit is a $200 fine billed to all participating students and employees.

The automatic sanction for illegal transfer/use of a handicap permit (state or BW issued) includes all penalties of illegal permit transfer/use plus an educational project to be determined by the Director of Student Conduct.
EQUAL OPPORTUNITY, HARASSMENT AND NONDISCRIMINATION POLICY

Baldwin Wallace University (BW) affirms its commitment to promote the goals of fairness and equity in all aspects of the educational enterprise. All policies of the *Equal Opportunity, Harassment, and Nondiscrimination Policy* are subject to resolution using the BW Equity Resolution Process (ERP), as detailed in the policy. When the responding party is a member of the University community, the ERP is applicable regardless of the status of the reporting party who may be a member or non-member of the campus community, including students, student organizations, faculty, administrators, staff, guests, visitors, campers, etc.

FREEDOM OF EXPRESSION POLICY

As an institution of higher education founded on the value of inclusion and believing that our diversity is an enduring strength of BW, we value the vibrant exchange of ideas among all members of our community.

This founding principle is represented by a community of individuals who demonstrate respect and care for each other. Meaningful dialogue regarding issues and concerns raised by members of the University community is a vehicle to help us better celebrate what we hold in common and to respect and understand our differences. Respecting the right of each individual to express his or her beliefs and ideas, we expect that this dialog will occur peacefully and in non-violent ways.

To this end, freedom of speech and expression is valued throughout the community. This is true for all speech except that which violates the rights of others to live and learn in a safe environment free from discrimination, harassment or threat of physical harm, is unlawful, violates University policy, is destructive to property or is grossly offensive on matters that are outlined in the University’s non-discrimination standards.

At times, the expression of free speech may take place in the form of organized efforts to communicate a perspective publicly. In exercising free speech, the University requires that demonstrations (including, but not limited to, protests, sit-ins or rallies) be officially sponsored and registered with the University and must adhere to all University policies.

The use of Baldwin Wallace campus facilities for demonstration events or the assistance of Baldwin Wallace staff in providing guidance to students does not imply acceptance or endorsement by the University of the views expressed.

Event Registration
- All areas of the demonstration registration form must ideally be completed at least (2) business days prior to the event to provide notice of the planned protest, rally or demonstration.
- This notice allows university staff to work with student organizers to ensure the event meets the guidelines of BW and local policies, as well as to provide assistance in order to enhance the learning experience related to protest and demonstration involvement.

Guidelines for Events
- Only Baldwin Wallace students, faculty, staff or recognized BW campus groups/organizations may register and facilitate demonstrations on University property.
- Demonstrations led by those who are not Baldwin Wallace students, faculty or staff are not permitted on University property. If any individuals who are not members of the University community are invited by a University community member to participate in the demonstration on campus, the University expects those individuals to abide by this policy as well, or face a possible range of actions, including, but not limited to, removal from campus and/or possible criminal action.
- Groups demonstrating must clearly indicate to their organization, media, and audience that the views and opinions expressed through the demonstration are not necessarily the views and opinions of Baldwin Wallace University, its students, alumni, employees, partners or contractors. Students participating in demonstrations represent themselves and not the University.
- All questions about demonstrations and the opinions and views presented through demonstrations should be directed to Student Affairs. This includes academic and co-curricular activities which are scheduled on campus. The VP for Student Affairs will engage other BW staff as necessary, to ensure that all related standards are met.
• Campus security will define appropriate demonstration areas in relation to access to buildings and flow of pedestrians to and from an event.
• Organizers are expected to follow campus policies related to event signage and noise (following city of Berea quiet hours).
• Organizers are responsible for complete clean-up of the event space, or may face fines or additional repercussions.

Conduct that will not be tolerated during demonstrations and protests
• Protesters may neither impede nor harass individuals wishing to attend a class or event, or to see or hear a speaker/performer.
• Conduct that threatens the health or safety of any person, including but not limited to, causing bodily harm to an individual; making physical contact of an insulting or provoking nature with an individual; reckless disregard for the health or safety of any person or any threat or physically threatening behavior which creates reasonable fear for a person’s safety.
• Damage to personal or campus property.
• If demonstration participants choose to engage in activity that does not prioritize safety or respect University property, the attendees generally will be warned before being asked to leave the event. However, if a significant concern about the safety of any community member or the University as a whole arises, as determined by Safety and Security or University administration, the University may remove a participant or terminate the event without first issuing a warning.
TOBACCO AND SMOKE-FREE POLICY

In the interest of the health, safety, and comfort of students, faculty, staff, and campus visitors, smoking is prohibited on all university-owned or leased property. This policy applies to faculty, staff, students, visitors, subcontractors, consultants, and vendors. This prohibition includes all university buildings, athletic and recreational facilities, parking lots and university owned, or personal vehicles being driven or parked on campus.

Tobacco use means the personal use of any tobacco product, whether lighted or not, including but not limited to: cigarettes, pipes, cigars, e-cigarettes, smokeless and chewing tobacco.

Employees are authorized and encouraged to communicate this policy with courtesy, respect and diplomacy. If an employee refuses to comply with this policy, Human Resources shall be notified. If a student refuses to comply with this policy, the Office of Student Conduct shall be notified. If contractors, consultants, visitors, or vendors refuse to comply with the policy, the Safety and Security Department should be contacted. Individuals violating the policy should initially be reminded about the policy. Continuing violations may also result in appropriate disciplinary action up to and including dismissal.

Tobacco is a leading cause of death in the United States. BW encourages any employee or student who uses tobacco to quit. More information on tobacco and smoking cessation programs can be obtained from Human Resources or the Student Health Center.
1.0 Overview
Baldwin Wallace University is hereinafter referred to as "BW".

Though there are a number of reasons to provide a user access to BW IT resources, by far the most common is granting access to students for educational/research purposes or employees for performance of their job functions. This access carries certain responsibilities and obligations as to what constitutes acceptable use of the BW IT resources. This policy explains how BW Information Technology resources are to be used and specifies what actions are prohibited. While this policy is as complete as possible, no policy can cover every situation, and thus the user is asked additionally to use common sense when using BW IT resources. Questions on what constitutes acceptable use should be directed to the HelpDesk, faculty advisor or if an employee, the user's supervisor.

2.0 Purpose
Information Technology, and other University departments which operate and maintain computers, network systems and servers, expect to maintain an acceptable level of performance and must assure that frivolous, excessive, or inappropriate use of the resources by one person or a few people does not degrade performance for others. The campus network, computer clusters, mail servers and other central computing resources are shared widely and are limited, requiring that resources be utilized with consideration for others who also use them. Additionally, inappropriate use of BW systems can expose BW to legal, financial or other types of risk. Therefore, it is important to specify what is permitted and what is prohibited. The purpose of this policy is to detail the acceptable use of BW Information Technology resources for the protection of all parties involved.

3.0 Scope
The scope of this policy includes any and all use of BW information resources, owned, managed or provided by BW. These IT resources include, but are not limited to, computer systems, cloud services, email, the network, and the BW Internet connection.

Also included are personally-owned devices, including student and contractor devices, that are attached to a BW network.
4.0 Policies

4.1 Network Access
As the user will be given access to the BW network, Internet, and other IT resources, BW expects the user to use these resources in a responsible manner.

The user must make a concerted effort to avoid accessing network data, files, and information that are not directly related to his or her job function if employed by BW or role as a student attending BW. Existence of access capabilities does not imply permission to use this access.

4.2 Web Browsing and Internet Usage
The Internet is a network of interconnected computers of which BW has very little control. The user must recognize this when using the Internet, and understand that it is a public domain and he or she can come into contact with information, even inadvertently, that he or she may find offensive, sexually explicit, or inappropriate, or that may be illegal in some jurisdictions. The user must use the Internet at his or her own risk. BW is specifically not responsible for any information that the user views, reads, or downloads from the Internet.

4.2.1 Personal Use
BW recognizes that the Internet can be a tool that is useful for both personal and professional purposes. Personal usage of BW computer systems to access the Internet is permitted as long as such usage follows pertinent guidelines elsewhere in this document and does not have a detrimental effect on BW operations or on the user's job performance.

4.2.2 Peer-to-Peer File Sharing
Peer-to-Peer (P2P) file sharing/networking applications (examples include but are not limited to: Ares Galaxy, Vuze, Limeware, uTorrent, BitTorrent, eMule, Shareaza, Frostwire) are not allowed on the BW business network under any circumstance. Students may use this technology on the student network provided by BW so long as it does not violate any other part of this policy such as prohibiting illegal activities.

4.2.3 Streaming Media
Streaming media can use a great deal of network resources and thus must be used carefully. Reasonable use of streaming media for research or educational purposes is permitted on both the student and business network as long as it does not negatively impact the computer network or, if employed by BW, the user's job performance.

4.2.4 Blogging
Blogging by BW's employees is subject to the terms of this policy, whether performed from the BW network, personal systems, or other external systems. The user is asked to recognize that information posted on a blog immediately becomes public information and thus to exercise extreme discretion in the type of information posted. In no blog or website, including blogs or sites published from personal or public systems, shall internal BW business matters be discussed, confidential or sensitive data released, or material detrimental to BW published. See the “Community Standards of Conduct” for additional guidance.
As long as BW policies, as specified herein, are followed, BW allows the publishing and use of blogs. However, when done from the BW network or during business hours, blogging by employees of BW must either A) be business related, or B) consume no more than a trivial amount of the user’s time and network resources. The user assumes all risks associated with blogging.

4.2.5 Messaging
The user should recognize that messaging technologies, such as and not limited to email, instant messaging, social media platforms, and SMS (text) messages, unless specific encryption measures are taken, are not considered secure methods of communication. The user must follow all policies to prevent the disclosure of confidential data, specifically that unencrypted confidential data, such as Credit Card Primary Account (PANs), student data or other sensitive data as defined by the Data Classification Policy must never be sent via messaging technologies in an unencrypted form.

4.2.6 Bandwidth Usage
Network bandwidth is a shared resource that must be used as such. Excessive use of BW bandwidth or other computer resources, where not required by job function or role as a student, is not permitted. Large file downloads or other bandwidth-intensive tasks that may degrade network capacity or performance must be performed during times of low BW-wide usage. Students in the Residence halls may not monopolize internet bandwidth resources. Examples of this include but are not limited to streaming services or gaming applications that generate an obsessive amount of network traffic. BW may restrict bandwidth for certain services deemed non-critical to BW operations, or as it sees fit to preserve network functionality.

4.2.7 Social Networking/Social Media
Social networking creates risks for BW in two ways: 1) in the potential sharing of BW confidential, private, or embarrassing information, and 2) the potential for an attacker to use posted information to craft a social engineering attack on BW. The user is asked to recognize that information posted on social networking sites is public information and to exercise extreme discretion in the type of information posted. No confidential information or sensitive is to be posted on social networking sites. Further, the user should restrict his or her privacy settings to fullest extent possible. The user must not publish any information detrimental to BW, its students, or employees that would cause embarrassment to BW on social networking sites.

As long as BW policies, as specified herein, are followed, BW allows reasonable use of social networking sites from its network and/or during business hours. This use must either A) be business related, or B) consume no more than a trivial amount of the user’s time and network resources. The user assumes all risks associated with social networking.
4.3 Unacceptable Use
The following actions shall constitute unacceptable use of the BW network. This section is not exhaustive, but is included to provide a frame of reference for types of activities that are deemed unacceptable.

4.3.1 Prohibited Actions
The user may not use the BW network and/or systems to actions such as but not limited to:

- Engage in activity that is illegal under local, state, federal, or international law (see section “Use for Illegal Activities” for more information)
- Engage in any activities that may cause embarrassment, loss of reputation, or other harm to BW.
- Download, store, or distribute violent, perverse, obscene, lewd, or offensive material
- Disseminate defamatory, discriminatory, vilifying, sexist, racist, abusive, rude, annoying, insulting, threatening, obscene or otherwise inappropriate messages or media
- Engage in activities that cause an invasion of privacy
- Engage in activities that cause disruption to the workplace environment or create a hostile workplace
- Make fraudulent offers for products or services
- Reveal personal or network usernames or passwords to others, including family, friends, or other members of the household when working from home or remote locations

- Reading, copying, modifying, or deleting private files (including those belonging to any students, faculty, staff, or the University’s administrative or academic files) without proper authorization
- Use the University’s network to communicate messages to others that are harassing, offensive, or obscene
- Attempt to crash the BW servers, intranet, or public electronic networks
- Violate intellectual property rights or copyrights in data or programs
- Destruction, damage, or theft of equipment, software, or data belonging to BW
- Give unauthorized persons access to BW facilities by divulging passwords
- Establish an individual wireless network on campus or connecting any device (other than a computer) to the network without authorization from the IT Department
4.3.2 Circumvention of Security
Using any computer systems to attempt circumventing any security systems, authentication systems, user-based systems, or the escalation of privileges is expressly prohibited. Knowingly taking any actions to bypass or circumvent BW security systems is expressly prohibited. This includes disabling or tampering with any security software, such as antivirus/anti-malware software or remote access software.

4.3.3 Use for Illegal Activities
No computer systems or devices shall be used for activities that are considered illegal under local, state, federal, or international law. Such actions may include, but are not limited to, the following:

- Unauthorized Port Scanning
- Unauthorized Network Hacking, including: packet sniffing, port scanning, packet spoofing, denial of service, wireless hacking
- Attempts to gain unauthorized access to or escalate privileges on a computer or other electronic system
- Acts of Terrorism
- Cybercrime, extortion, or Identity Theft
- Downloading, storing, or distributing any material prohibited by law
- Downloading, installing, or distributing unlicensed or "pirated" software
- Sending unsolicited bulk email or other messages deemed illegal under applicable regulations.
- Any other activity that circumvents the intended use of the system and or impacts the integrity of the University Networks and Systems

BW will take all necessary steps to report and prosecute any violations of this policy.

4.3.4 Overuse
Actions detrimental to the computer network or other BW resources, or that negatively affect student and/or employee job performance, or BW operations are not permitted. The University may choose to set limits on an individual's use of a resource through quotas, time limits, and other mechanisms to ensure that these resources are used appropriately.

4.3.5 Copyright Infringement
BW's computer systems and networks must not be used to download, upload, or otherwise handle illegal and/or unauthorized copyrighted content. Any of the following activities constitute violations of the Acceptable Use Policy, if done without permission of the copyright owner: A) copying and sharing images, music, movies, or other copyrighted material using any method, unlicensed websites, or unlicensed media; B) posting or plagiarizing copyrighted material; and C) downloading copyrighted files which employee has not already legally procured. This list is not meant to be exhaustive; copyright law applies to a wide variety of works and applies to much more than is listed above. For additional guidance see BW Intellectual Property Policies in the BW Employee Handbook.
4.4 Monitoring and Privacy
Users should expect no privacy when using the BW network or BW resources. Such use may include but is not limited to: transmission and storage of files, data, and messages. BW reserves the right to monitor any and all use of the computer network. To ensure compliance with BW policies this may include the interception and review of any emails, or other messages sent or received; inspection of data stored on personal file directories, hard disks, and removable media; and monitoring of Internet/network usage.

4.5 Responsible Computer and Network Use
BW expects users to use the network responsibly. Personal usage of BW computer systems is permitted as long as such usage follows pertinent guidelines elsewhere in this document and does not have a detrimental effect on BW operations or on the user's job performance.

4.5.1 Non-BW-Owned Equipment

4.5.1.1 Non-BW-Owned Equipment Permitted
User or contractor provided computer equipment and devices (other than prohibited in section 4.5.1.2) are generally permitted to connect to BW's network shall adhere to Acceptable Use Policy and all other IT Policies and Standards. Examples of these devices are: laptops, notebooks, tablet computers, smartphones, game consoles/devices, etc.

4.5.1.2 Non-BW-Owned Equipment Prohibited
Non-BW-provided computer equipment that are prohibited for use at BW include:
- Any form of network device used for routing traffic such as, but not limited to: hubs, repeaters, gateways, wifi router, firewalls, …
- To protect the privacy and confidentiality of material being worked on by members of the BW workforce, any device that has the ability to continuously listen to conversations such as personal virtual assistants. (Examples: Amazon Alexa, Google Assistant or other such devices.)

4.5.2 Removable Media
In an open environment such as higher education, the use of personal storage devices is common but represents a very serious threat to data security. Examples of this devices are: USB drives, flash storage, media players, etc.

When using removable media, all rules for handling confidential data, such as those defined in the Data Classification Policy, must be strictly followed. This includes the use of encryption technologies to protect the information stored on these devices in case they are lost, stolen or access inadvertently obtained. For more information on proper encryption please visit http://help.bw.edu.

4.5.3 Software Installation
Unauthorized installation of non-BW-supplied software applications on BW resources is prohibited. Numerous security threats can masquerade as innocuous software - malware, spyware, and Trojans can all be installed inadvertently through games or other programs. Alternatively, software can cause conflicts or have a negative impact on system performance.
4.6 Reporting of an IT Security Incident

See something say something! It is critical that users immediately report any suspicious activity so the university can quickly mitigate security threats. If an IT security incident or breach of any security policies is discovered or suspected, the user (student, employee, or contractor) must immediately notify the BW Help Desk. Examples of incidents that require notification include but not limited to:

- Suspected compromise of login credentials (username, password, etc.)
- Suspected virus/malware/Trojan infection
- Loss or theft of any device that contains BW information
- Loss or theft of ID badge, keycard, or two-factor authentication token
- Any attempt by any person to obtain a user's password over the telephone or by email
- Any other suspicious event that may impact BW's information security.

4.7 Applicability of Other Policies

This document is part of BW’s cohesive set of security policies. Other policies may apply to the topics covered in this document and, as such, the applicable policies should be reviewed as necessary.

5.0 Enforcement

5.1 Employee Enforcement

This policy will be enforced by the Chief Information Security Officer, Chief Information Officer, and BW Administration. Violations may result in disciplinary action, which may include suspension, restriction of access, or more severe penalties up to and including termination of employment. Where illegal activities or theft of BW property (physical or intellectual) are suspected, BW may report such activities to the applicable authorities.

5.2 Student Enforcement

Suspected misuse of the facilities should be reported to the Chief Information Security Officer (CISO) or the Chief Information Officer (CIO). The CISO and/or CIO, who is authorized to determine if there has been a violation of policy or law will refer student violators to the Office of Student Conduct for resolution. Pending the outcome, access to the shared technology resources may immediately be restricted or suspended. In some cases, limited access will be provided to the facilities needed for University-related activities, such as classes. Violations can result anywhere from Conduct Probation to suspension or expulsion from the University. Where illegal activities or theft of BW property (physical or intellectual) are suspected, BW may report such activities to the applicable authorities.
TRAVEL POLICIES AND PROCEDURES

Travel off-campus by recognized BW student organizations is overseen by the Office of Risk Management. This section highlights parts of their off-campus travel policy. Please see the Office of Risk Management myBW site for complete information. Questions about student organization travel can be directed to the Office of Risk Management at 440-826-2444.

What is Student Organization Travel?
*Baldwin Wallace University Student Organization Off-Campus Travel* is defined as any off-campus experience that is sponsored by a recognized Baldwin Wallace student organization. Such travel includes, but is not limited to, retreats, conferences, conventions, competitions, workshops, field trips, off-campus speakers or rallies. The travel must be approved by the organization’s faculty/staff advisor and should support the mission of the organization.

What is a Recognized Student Organization?
A recognized student organization at Baldwin Wallace University is one who has had their charter approved by both the Office of Student Activities and Student Senate and has registered with the Office of Student Activities by the Friday of the 5th week of the fall semester each academic year. A recognized student organization does not have to receive funding from Student Government.

Registering a Student Organization Trip
Student organizations traveling off-campus must register their trip with the Office of Risk Management at least 24 hours before the trip by completing the online registration form at [www.bw.edu/travel-registration](http://www.bw.edu/travel-registration) and the online roster form at [www.bw.edu/travel-registration-roster](http://www.bw.edu/travel-registration-roster).

Student Organization Travel Policy
Before registering their travel, a student organization should read the *Student Organization Off Campus Travel Policy*, as registering their trip means they agree to all terms and conditions outlined in the policy.

Compliance with University Policies
All participants must understand that University policies, outlined in this Student Handbook, for faculty, staff and students are still in effect and apply to trips regardless of the location. Instructional activities and settings should be consistent with BW policies including, but not limited to, policies on alcohol and drug use, vehicle use, student misconduct, principles of academic freedom policy on sexual harassment and consensual relationships.

Forms
Students must complete the following REQUIRED FORMS for all overnight travel: Trip Participant Emergency Contact Information, Health Information Statement and the Student Agreement Statement and Waiver. These forms can be found on the myBW site for the Office of Risk Management.

Failure to Comply
Failure to comply with these policies may result in revocation of travel allowances for the entire organization for a length of time to be determined by the Director of Risk Management and the Vice President for Student Affairs and possible adjudication by Student Conduct.
Basic Behavior Policy

Students who participate in an Explorations/Study Abroad program must have a clear student conduct record and/or be approved by the Student Conduct Office. Serious or multiple violations of University policy may jeopardize eligibility for Explorations programs. Students will not be eligible for a program if he/she has been found in violation of any of the following policies within the past 12 months: Alcohol, drugs, assault (any type), harassment, stalking, vandalism, theft and more (this list is not all-inclusive).

If a violation occurs after the student has been admitted, but before the program start date, the University reserves the right to exercise its authority in removing him/her from the off-campus program.

- Probation: If a student has violated any Student Handbook policy and is placed on Conduct Probation as a sanction, the student will be dismissed from the program automatically and the program/application removal will be final. *See Cancellation/Refund Policy Below.
- If a student has received a written warning or an educational assignment, then the student may appeal to the Explorations/Study Abroad Office. Explorations in conjunction with the Dean of Students and Student Conduct will determine the appropriate outcome.

General Cancellation/Refund Policy

A participant in any Explorations program who cancels or who is dismissed from a program is subject to all pre-paid expenses for the program and a $300 cancellation fee.

The University provides access to many unique programs in which students, or others, may enroll and participate throughout the world. This cancellation refund schedule is to be used only as a general guide as each individual program may have different requirements and refund schedules. If money, on your behalf, has been paid for any off-campus program, the University will request return of the monies paid according to the refund policy of the partner institution/organization. There are no refunds on any DEPOSITS made by or for the student. (Students should be aware that deposits for accommodations, tuition, and other fees must often be sent by Baldwin Wallace University to the host institution several months in advance of the term in which the student will enroll. Baldwin Wallace University has no control over the return policies of other institutions/organizations.)

In all cases, the refund schedule, if any, for a particular program takes precedent over schedules provided here. Absent any specific program refund policy, all University-arranged programs will be bound by the following cancellation policy: A full refund (minus any non-refundable deposits or fees) that has been advanced or paid on your behalf will be made if cancellation is made prior to 60 days of the program start date. Cancellations that occur between 59-30 days will receive a refund of 75%. Cancellations, for any reason, that occur within 30 days of the program start date will receive no refund. All refunds, of any kind, will be tendered as credits against the student account at Baldwin Wallace University. Credit balance refunds may be obtained from the University through the normal refund process.
The policies of Baldwin Wallace University residential living are designed with you, the resident, in mind. A “resident student” is defined as a Baldwin Wallace student who has applied, been accepted and paid for housing in a Baldwin Wallace University residence hall or apartment. As a resident, you have the right to live in a safe, peaceful and secure environment, and you have the responsibility to uphold your rights and the rights of others.

Each resident is responsible for reading and adhering to the following policies and procedures so that you fully understand and appreciate your rights and responsibilities while living in Baldwin Wallace campus housing. If you have any additional questions, ask a member of the residence hall staff for you will be held accountable for all new and existing policies and procedures.

Residence Life Procedures

Abandoned Property
The University reserves the right to remove any personal belongings left behind in any room or apartment when a resident is no longer a student, has checked out, or at the end of the academic year. Residents will be notified via their BW e-mail address with instructions for retrieving the items. The University may discard or dispose of all abandoned belongings thirty days after the date of initial notification.

Air Conditioning for Non-Air Conditioned Rooms/Apartments
Baldwin Wallace University requires students to provide documentation of their diagnosis (from a physician or health care provider) and complete the Air Conditioner Request form in order to have a window air conditioner unit installed in their residence hall room. These are the only types of air conditioners allowed in campus residences.

A request for use of a personal air conditioner (A/C) in your campus residence will be approved under the following conditions:

1. You must have a history of a chronic medical condition that necessitates use of an A/C.
2. You must complete the Air Conditioner Request form and send it to the Office of Residence Life.
3. You must have your physician or healthcare provider complete the Chronic Medical Condition Verification Form (included within the Air Conditioner Request form) and submit it as documentation of your chronic medical condition to the Office of Residence Life.

Please NOTE:

1. The diagnosing professional may not be a family member.
2. “Seasonal Allergies” is not a chronic medical condition.
3. A note on a prescription pad is not an acceptable form of documentation.
4. It is the student’s responsibility to confirm receipt of the documentation.
5. All documentation can be faxed to the Office of Residence Life at 440-826-3730.
Upon receipt of the documentation and request form, the Office of Residence Life will evaluate your air conditioner request. Students whose request has been approved will be sent a confirmation email. Once approved, it is your responsibility to:

1. Purchase the air conditioner. The unit must be a window unit, portable, less than 6,000 BTU’s, and be able to plug into a 110 volt electrical outlet.
2. Bring your air conditioner on the check-in date listed on your Air Conditioner Request Form. There will not be any Residence Life staff available to grant you access to drop off the unit before your check-in date.
3. Have the portable unit in your room ready to install. Please leave it out in the open so it is visible to the installers. Installation will be delayed if the unit is not available when Buildings and Grounds Department (B&G) arrives.
4. Make arrangements with B&G (440-826-2233) to have the unit removed at the close of the academic year.

Please NOTE:

1. All Air Conditioner Request forms must be received by the Office of Residence Life by August 1st in order to be considered for the upcoming year.
2. Installation of your unit will occur within ten (10) business days of your check-in date. Our B&G department works diligently to install all air conditioners based on the check-in date provided on the request form. Since they get many requests at the beginning of the school year, it is advisable to submit your request and documentation early for prompt installation.
3. No units will be installed after October 1st.

Bicycles
Bicycle racks are located near all residence halls and apartments. Bicycles should be locked at all times. For safety reasons, bicycles may not be stored in stairwells, hallways, lounges, lobbies, corridors, porches, overhangs or other public areas; bicycles stored in these areas will be removed. Bicycles left on campus may be discarded after May 31st of each year. Bicycles with motors may not be stored in resident rooms or indoor bicycle storage areas.

Card Readers
All residence halls have been wired with a keyless card reader entry system. There is a $10.00 charge for loss of a card. New cards are obtained at the Campus Access Services office (formerly known as the ID Office - located in the Union) during business hours.

Check-in/Check-out/Room Condition Reports
When you move into a room or apartment, you must complete the Room Condition Report. The condition of your campus housing should be thoroughly checked and recorded. Based on the check-in Room Condition Report, you will be charged for any damage that occurs during the time you occupy the room, apartment or house. Therefore, you must complete the Room Condition Report both upon check-in and check-out. Failure to do so will result in a $125.00 fee plus, if applicable, a $65.00 lock change plus any additional key replacement fees if the keys are not returned at the time of check out to a residence life staff member. This $125.00 charge will be assessed to any resident who does not sign their name, date the Room Condition Report, and officially check out with a residence hall staff member.

A registered student occupying a space they are not assigned to or occupying an assigned space prior to or after the approved time to do so will result in a $125.00 improper occupancy fee.
If a student is no longer enrolled in classes, they have 48 hours from their change in status to vacate the space and follow proper checkout procedures. Failure to do so may result in a lock change and implementation of the abandoned property procedure, charges for which will be billed to the student’s account.

**Consolidation**
Residents who find themselves with an open bed in their room or apartment may face consolidation. Residents in a room or apartment with an open bed must do one of the following by the third Monday of each semester, or no later than five calendar days from the date the bed becomes available:

- request a space buyout and pay the additional charge
- have another student move into the open bed
- make their room available for the Office of Residence Life to assign a new roommate*
- transfer to another room or apartment with an open bed. An exact additional charge may be obtained by contacting the Office of Residence Life at 440-826-2114.

*It is the responsibility of the resident(s) to maintain the room as “roommate ready”, which means at any time, a new person may move in and have their bed, dresser, desk, and an equal share of the closet/wardrobe space immediately available to them. If at any time the room is deemed not roommate ready, either a $100 charge will be assessed or the resident(s) may be charged the buyout rate.

If no action is taken, the Office of Residence Life reserves the right to bill the resident the buyout rate.

**Entry of Student Rooms/Apartments**

Occasionally it is necessary for University staff members to enter campus housing to fulfill maintenance and repair requests or to conduct inspections to ensure the observance of basic safety and health standards. While fulfilling their administrative responsibility to enforce University and Residence Life policies and to ensure the well-being of residents, members of the Office of Residence Life staff may enter campus housing at any time.

**A. Buildings and Grounds Personnel:** Buildings and Grounds (B&G) will enter campus housing when a work order is submitted to make requested repairs and will assume permission to enter has been given at the time the request for repair was made.

**B. Residence Life Staff:** An inspection of campus housing will be conducted at least once each semester, or as needed, to ensure the observance of basic safety, hygiene, fire and health standards, and to recover University furniture not issued to campus housing. When possible, a courtesy notice will be given for room inspection, either by posting signs or by email. If the resident is not present during the inspection, two staff members (one which will be a Hall Director or Area Coordinator) will conduct the inspection. Anytime a residence life staff member enters an unoccupied room/apartment, they are required to lock the door as they leave.

As a matter of courtesy, staff members shall knock on the door, announce who they are, and ask for the door to be opened. If there is no response or an unusual delay in opening the door, the staff member will use a master key to enter.
Health Emergencies
When responding to students with medical conditions that constitute a threat to self or others, or who have made threats of or statements alluding to harm to self or others, Residence Life staff will consult with and work with campus and community partners including counselors, medical professionals, local police, and emergency medical staff to determine an appropriate response. Students are expected to comply with directions of university officials in these instances.

Residents who experience health emergencies may be required to leave campus housing for a period of time in order to receive care. In order for the University to consider the return of a student to campus housing, a resident may be required to meet with appropriate staff at Baldwin Wallace University’s Health and Counseling Center to provide information that would assist in determining the following:

1. Whether the resident poses a substantial danger or risk to their own health or the health and well-being of other persons within the campus community.
2. Whether the resident is likely to be seriously disruptive to the educational process or mission of the University.

The Director of Residence Life, in consultation with Vice President of Student Affairs and using the above criteria along with other information available to the Office of Residence Life, will determine whether the resident may reside on campus.

Housing Requirement Policy
Baldwin Wallace University believes that living on campus is an important part of the overall university experience and enhances student success. Therefore, all full-time students (12 credit hours per semester) are required to live in University housing their first and second year entering Baldwin Wallace University.

Exceptions will be made for the following reasons (documentation will be required for b thru g):
   a. Students 21 years of age or older prior to September for that academic year
   b. Commuters - students who are residing with their parents or legal guardians at the parent’s or legal guardian’s permanent address, which must be within a 50 mile radius of campus (The exemption form must be notarized by a Notary Public)
   c. Students who are married, divorced, or widowed
   d. Single parents with a dependent child
   e. Military personnel with one or more years of active duty
   f. Students who have lived on a university campus for four consecutive semesters
   g. Students needing medical accommodations that the University is unable to provide

Only undergraduate students aged 17-24 are permitted to live on campus. Undergraduate students under 17 or older than 24 who wish to live in campus housing must petition the Director of Residence Life. Graduate student housing is available as space permits.

Keys
Each resident is issued keys to their assigned campus housing. These keys are not transferable (e.g. loaned to other people) and may not be duplicated. When a room key is lost, a $65.00 lock change fee plus $12.00 for any additional lost keys (e.g. mailbox, exterior, etc.) will be assessed. If a new key is issued and the original key is found, no refunds will be made.
If keys are stolen and the theft is reported to the police in the jurisdiction the theft occurred in, there will be no charge for the lock change. A police report must be provided to the Office of Residence Life in order for the charges to be waived.

**Kitchens**
Special attention needs to be given to the cleanliness of hall kitchens. The Office of Residence Life reserves the right to restrict or remove kitchen use privileges if the following are not adhered to:

- Residents are responsible for washing their own dishes in a timely manner (dishes and other belongings that are left in the kitchen or fridge will be discarded).
- Residents are expected to be present in the kitchen while any burner, oven or microwave is in use.
- At the end of each semester the hall kitchen refrigerator will be emptied and cleaned.

**Lockout Policy**
A Lockout Request form will be filled out every time a staff member has to let a student into their room/apartment. After the first lockout, the student will be billed a $5.00 charge per lockout. Residents requiring access to their residence hall room when the halls are closed during breaks (winter and spring) will be charged a $15.00 fee. The master key will not be used to let students into rooms they are not assigned to, even for the retrieval of personal property.

**Mandatory Meetings**
Residence Life staff members will schedule floor/wing or hall meetings to communicate important information to residents. These meetings are considered mandatory for all residents of the floor/wing or hall, and will be publicized as such. If a resident is unable to attend a mandatory floor, wing or hall meeting, they are still required to know the information and are responsible for contacting a staff member to discuss information shared during the meeting.

**Medical Condition(s) That May Affect Room Assignment**
Residents needing housing accommodations related to a disability or health condition must submit documentation to Disability Services for Students (DSS). All attempts will be made to provide reasonable accommodations for every student who has a documented disability. Due to the various physical designs of each residential facility, housing options may be limited for students who present a need for housing accommodations. Students returning to the residence halls for the following year must request accommodations and provide documentation by the end of February each year.

**Personal Property**
Baldwin Wallace University is not responsible for the loss of any personal property. Residents are encouraged to carry personal property insurance and to lock their doors at all times to prevent easy access and possible theft. Residents should check with their family to determine the extent of coverage. Items of value are encouraged to be taken home over breaks.

**Posting**
All signs, flyers, door hangers, etc. to be posted in Residence Halls/Apartments need to be approved by the Office of Residence Life in advance. Once approved, signs and flyers should be attached to designated bulletin boards/posting areas using only masking tape or blue painter’s tape. Postings are not to be affixed to glass surfaces that effect entering and leaving a room, hallway or building. Any item not adhering to these guidelines will be removed. Damage resulting from signs, flyers, etc. may result in charges being assessed to the group, organization or individual that posted the information. Only residence hall staff is authorized to post on student room doors.
**Power Outages**
During a building-wide power outage, residence hall staff members will make frequent rounds until the power returns. A power outage in no way alters the regulation that prohibits the burning of candles or any open-flame device in campus housing.

**Room Condition**
The following guidelines apply to all campus housing:
- Residents are responsible for all University furniture in their rooms.
- Residents may not remove any University-owned furnishings from their rooms, nor may they detach any furnishings that are attached to the walls (dressers, desks, mirrors, beds, etc.).
- Any furniture brought into a shared room by a resident that is not meant for use by all residents of the room (e.g. beds, printers, desks, chairs, etc.) may not take up a larger percentage of space in the room than would be allotted to each resident (i.e. 50% of a double, 33% of a triple, etc.).
- Residents may not remove University furnishings from the lobby, lounges or any public or private areas of campus housing. A fine will be assessed up to $75.00 to $100.00 per item.

- Residents assigned to the Front Street Residence Hall, Heritage Hall C wing, Lang Hall and Amelia Harding Hall may not affix anything to the exterior or interior of their room door. Residents in the Davidson Commons may not affix anything to either side of their suite, room or bathroom doors.
- Painting, wall borders, contact paper and wall paper are prohibited. This includes attempts to repair damage already done.
- No alterations may be made to electrical fixtures or wiring. No electrical wiring (i.e. lights sets, extension cords, etc.) is to be on the exterior of the room door.
- Nothing may be hanging from the ceiling or near fire safety equipment.
- Residents may not hang or drape any materials from the furnishings in a room.
- Any window treatments and carpet that is kept in campus housing must be nonflammable. Curtains may be hung using tension rods in the window frames. Drilling holes in walls or using nails/screws to hang curtain rods is prohibited.

- Residents are responsible for all smoking related cleaning charges, including but not limited to repainting, recarpeting, mattress replacement, furniture replacement, blind replacement, etc.
Room Selection
Room Selection is an online process where current students can select housing for the next academic year. Selection times will be randomly assigned to residents based on the number of earned credit hours at the end of the preceding fall semester. Students are required to pay a $150.00 housing deposit or have a deposit on file in order to participate in room selection. Prior to room selection, residents will be able to view their countdown on https://bw.erezlife.com/. Complete Room Selection procedures are made available prior to selection. Current students interested in apartment living and/or special interest housing are required to apply and participate in the appropriate special selection process. Official Residence Life publications are the only valid source of Room Selection information, and information is updated yearly.

Security
The Office of Residence Life offers a variety of services that contribute to the development of a safe and pleasant living environment, including security cameras in select locations. However, the campus community is not immune to crime. Creating a safe living environment is the responsibility of all community members. Therefore, all residents should promote safety in the residence halls/apartment/houses by following these guidelines:

• All guests must be escorted at all times by a resident of the building while in campus housing.
• Confront and/or report any unescorted non-residents to the Hall Director, RA, or Safety and Security.
• Suspicious activity should be reported immediately to Safety and Security. Special awareness of security is needed during vacation periods when there are fewer students on campus.
• Do not prop open any doors, or block exit doors or fire exits at any time.
• Close any door that you find propped open.
• While not in your room, or sleeping, make sure the door to your room is closed and locked. It only takes a few seconds to enter an unlocked room and take valuables.
• Forceful entry into any residence hall door (by pulling/yanking the door to open) will result in disciplinary action.
• Broken locks and lights, lost keys, or any other potential security problems should be reported to your Hall Director, RA or Safety and Security as soon as possible.

Sustainability in the Residence Halls

Save Energy

• Turn off your laptop, monitor, printer, room lights, television, radio, etc. when not being used and when you leave your room. Turning off your computer equipment reduces heat stress and wear on your system while saving energy. Screen savers do not save energy.
• Use CFLs (compact fluorescent lamp bulbs) or LEDs (light emitting diode bulbs) in your desk lamp.
• Use power strips to plug in your laptop, printer, cell phone charger, gaming console, television, etc. Turn off the power strip when you are asleep or off to class.
• Buy energy efficient ENERGY STAR® electronics and appliances such as televisions, laptops, computer monitors, Blu-ray and DVD players, printers, lamps, and small refrigerators.
• In cooler months, do not open your window to cool your room.
Manage Waste

- Discuss with your roommate and suitemates how to reduce consumption of disposable products as much as possible and to re-use and recycle those products you do bring into your room.
- Use the blue recycling containers provided in your room for all your recyclables: metal, plastic, glass, paper and cardboard.
- Minimize your purchase and use of disposable glass, plastic and paper containers. Buy and use products in containers that can be reused and/or recycled.
- "Green clean" with reusable washcloth or sponge, not paper towels. Use green cleaning products available at local convenience stores.
- Recycle – all together – METAL, GLASS, PAPER and PLASTIC
  - **Single Stream Recycling** occurs in all traditional residence halls, suites, and apartments. This makes recycling all the easier as you do not need to separate your recyclables!
  - Rinse glass bottles and jars, aluminum and tin cans, and plastic containers and store them in your personal recycling bin.
  - **Recyclable plastics** can be placed in campus recycling containers include beverage bottles; microwavable food trays; laundry, dish and shampoo containers; and common food containers for yogurt, butter, salad dressing, milk and juice.
  - **Mixed paper** includes unwanted mail, pizza boxes and cereal boxes, flattened corrugated cardboard, waxed cardboard beverage containers and virtually every other paper product.
  - **Always store recyclables** in your personal recycling bin before carrying them to the labeled recycling container (in floor hallways, lounges, lobbies, most laundry rooms) or the green recycling containers outside your building.
  - **Reuse plastic shopping bags** as trash can liners before discarding them.
  - **Recycle plastic grocery bags** containers will be located in the residence halls to collect and recycle, in addition local stores such as Giant Eagle collects plastic bags.
  - Avoid paper waste by using the double-sided function on your printer and recycling pages until you've printed on both sides or used them for notes and messages. **Edit your documents** on screen and by using the print preview function rather than printing drafts.
- **Other Tips:**
  - Eat-in whenever possible. Limit use of disposable cups and food containers to those items you carry out of the dining room or restaurant. Always use glass/dishware when you can.
  - Bring a reusable water bottle to avoid having to buy water. Each residence hall has reverse osmosis water fountain for filling your water bottles.
  - Bring a backpack or reusable shopping bag for your books, water bottle, snacks, etc.
  - Recycle corrugated cardboard boxes that you bring to move-in day. We will provide a notice on where to drop off your cardboard for recycling.
  - Encourage others to make "reduce, reuse and recycle" their everyday habit.
  - At the end of the year, donate unwanted clothes, electronics, bookcases, bicycles, carpets, small appliances, etc. at designated locations in each residence hall. Look for the “**Leave it Behind**” boxes. Old textbook will be collected at the end of each semester to avoid books placed in the landfill.

**Telephone/Electronic Harassment**
Telephone and electronic forms of harassment are prohibited. Specifically, Baldwin Wallace University prohibits the making or sending of anonymous, obscene, harassing, or abusive calls and messages. If a student is experiencing harassing phone calls or electronic messages they should notify their Hall Director or Safety and Security at 440-826-2000. For more information about e-mail harassment see Information Technology’s Access and E-Mail Policy as well as the University Policies in the Student Code of Conduct.
**Thefts**
All students should take precautions against thefts. Most thefts that occur in the residential units occur as CRIMES OF OPPORTUNITY when a student leaves their room without locking their door or when they leave their laundry unattended in a laundry room. Most thefts can be prevented by eliminating these situations. Students are advised to keep room doors locked at all times. If a theft does occur, students should report it immediately to their Resident Assistant and the Office of Safety and Security. Lost Jacket Express Cards should also be reported to Campus Access Services and deactivated. Students may also assist by notifying Safety and Security personnel immediately of any suspicious people on campus.

**Vacation/Breaks**
The Residence Halls are closed during winter and spring breaks. Residents may leave personal property in their rooms during these breaks at their own risk, provided that all personal items are removed from the floor and away from the heating units to facilitate cleaning or maintenance. Residents may not leave personal belongings in the hallways, lounges and public bathroom during breaks. Residents must apply to reside on campus over winter and spring break by the posted deadlines. Failure to apply by the posted deadline will result in a $25 late fee. Those approved to stay on campus during breaks will be charged a fee and may be required to move into a designated residential facility during the designated period. No personal storage is available over the summer months.

Break closing instructions will be provided by the Office of Residence Life prior to all closings. Failure to comply with these instructions may result in a $25 fine billed to the resident’s account. The Office of Residence Life has the option to split this cost between roommates or suitemates. This charge is determined by the Area Coordinator and/or Associate Director of Residence Life and cannot be appealed. For questions, please contact the Office of Residence Life at 440-826-2114 during normal business hours.
