# Community Research Institute Baldwin Wallace University Ohio 2018 Primary Poll 

The Baldwin Wallace University Community Research Institute conducted an online panel survey of 811 self-identified registered voters across the five regions of Ohio (NE, SE, NW, SW, Central). Based on stratification of respondents for gender, region, and age, the survey has an estimated error of $\pm 3.5 \%$, with higher error estimates for subgroups (e.g., party ID). The survey was fielded by Qualtrics, LLC during the period of April 24 - May 2, 2018. Response percentages for each question are followed by crosstabulations for respondent gender, age, educational attainment, and race/ethnicity (see pp. XX for survey demographics).
