## BW-Prepared Teachers and All Ohio Educator Preparation Providers (EPPs)

Reporting Period from Sept 1, 2021 to Aug 31, 2022

### Description of Data:

Ohio’s system for evaluating teachers (Ohio’s Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio’s school districts.

An apparent dip in evaluations for the most recent “Initial License Effective Year” cohort comes from the perception that any given year’s evaluation results are actually a chronological view of evaluations. Rather, it’s a review of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES Data):

1. The information in the report is for those individuals receiving their licenses with effective years of 2018, 2019, 2020, and 2021.

## BW-Prepared Teachers and All Ohio Educator Preparation Providers (EPPs)

Reporting Period from Sept 1, 2020 to Aug 31, 2021

**Information regarding data available for the 2019-2020 and 2020-2021 school years:**

Due to Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bills 197 and 404), OTES/OPES and Value-Added data will be limited or not available. Additionally, during this challenging time, the distribution of some surveys were delayed, contributing to lower response rates.
